

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Lynch
DOCKET NO.: 14-26568.001-R-1
PARCEL NO.: 03-08-414-001-0000

The parties of record before the Property Tax Appeal Board are James Lynch, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,007
IMPR.: \$23,156
TOTAL: \$27,163

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,152 square feet of living area. The dwelling is approximately 41 years old. Features of the home include a concrete slab foundation, a fireplace and a two-car garage. The property has a 9,430 square foot site and is located in Buffalo Grove, Wheeling Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables. The comparable dwellings are either 56 or 57 years old and contain from 2,279 to 2,549 square feet of living area. The comparables have improvement assessments ranging from \$18,745 to \$20,788 or from \$8.16 to \$8.23 per square foot of living area. Based on this evidence, the appellant requested a

reduction in the subject's improvement assessment to \$17,689 or \$8.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$27,163 was disclosed. The subject property has an improvement assessment of \$23,156 or \$10.76 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties. The dwellings are from 39 to 42 years old and contain from 2,011 to 2,200 square feet of living area. These properties have improvement assessments ranging from \$22,523 to \$26,373 or from \$11.20 to \$12.19 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Both parties presented assessment data on a total of seven suggested comparables. The Board finds the appellant's comparables were significantly older than the subject and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables were most similar to the subject in age and were also very similar in location, design, living area and foundation. These comparables had improvement assessments that ranged from \$11.20 to \$12.19 per square foot of living area. The subject's improvement assessment of \$10.76 per square foot of living area falls below the range established by the best comparables in this record. The Board considered adjustments and differences in the comparables when compared to the subject. The comparables submitted by the board of review had central air conditioning basements, while the subject did not. The superior attribute of central air conditioning helps to explain why these comparables had higher improvement assessments than the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
