

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cheryl Herman
DOCKET NO.: 14-26575.001-R-1
PARCEL NO.: 03-35-303-003-0000

The parties of record before the Property Tax Appeal Board are Cheryl Herman, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,472
IMPR.: \$19,443
TOTAL: \$24,915

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction with 1,414 square feet of living area. The dwelling is approximately 56 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a two-car garage. The property has an 11,520 square foot site and is located in Mount Prospect, Wheeling Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables. The comparable dwellings are from 53 to 62 years old and contain from 1,693 to 1,719 square feet of living area. The comparables have improvement assessments ranging from \$16,792 to \$19,115 or from \$9.92 to \$11.12 per square foot of living area. The appellant also submitted a map showing the

location of the subject property and the comparable properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$15,568 or \$11.01 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$24,915 was disclosed. The subject property has an improvement assessment of \$19,443 or \$13.75 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties that were described as being located on the same block as the subject property. The dwellings are 56 years old and contain from 1,389 to 1,475 square feet of living area. These properties have improvement assessments ranging from \$20,446 to \$21,777 or from \$14.46 to \$15.18 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Both parties presented assessment data on a total of seven suggested comparables. The Board finds the appellant's comparables had significantly more living area than the subject, and the appellant's map revealed the appellant's comparables were not located near the subject property. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables were located on the same block as the subject and were also very similar in design, exterior construction, age, living area and foundation. These comparables had improvement assessments that ranged from \$14.46 to \$15.18 per square foot of living area. The subject's improvement assessment of \$13.75 per square foot of living area falls below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
