

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Webb
DOCKET NO.: 14-26589.001-R-1
PARCEL NO.: 03-16-107-024-0000

The parties of record before the Property Tax Appeal Board are David Webb, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,334
IMPR.: \$30,485
TOTAL: \$34,819

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 2,197 square feet of living area. The dwelling is approximately 37 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 9,125 square foot site and is located in Arlington Heights, Wheeling Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables. The comparable dwellings are from 25 to 47 years old and contain from 2,200 to 2,711 square feet of living area. The comparables have improvement assessments ranging from \$21,111 to \$29,153 or from \$9.60 to \$11.17 per square foot of living area. The appellant also submitted a map showing the

location of the subject property and the comparable properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$23,288 or \$10.60 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$34,819 was disclosed. The subject property has an improvement assessment of \$30,485 or \$13.88 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties that were described as being located in the same block as the subject property. The dwellings are 37 or 41 years old and contain from 2,088 to 2,197 square feet of living area. These properties have improvement assessments ranging from \$28,961 to \$31,933 or from \$13.87 to \$14.53 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds the appellant's comparables #1 and #3 differed significantly from the subject in age and comparables #2 through #4 had considerably more living area than the subject. In addition, the appellant's own evidence revealed that comparables #1, #2 and #4 were not located near the subject property. As a result, the appellant's comparables received reduced weight in the Board's analysis.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables were located in the same tax block as the subject and were also very similar in design, exterior construction, age, living area and features. These comparables had improvement assessments that ranged from \$13.87 to \$14.53 per square foot of living area. The subject's improvement assessment of \$13.88 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
