

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Leon Nunn  
DOCKET NO.: 14-26973.001-R-1  
PARCEL NO.: 25-15-108-014-0000

The parties of record before the Property Tax Appeal Board are Leon Nunn, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$2,055  
**IMPR.:** \$6,706  
**TOTAL:** \$8,761

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1½-story dwelling of frame construction with 1,764 square feet of living area. The dwelling is 99 years old. Features of the home include a full basement with finished area and a 1½-car garage. The property has a 4,110 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence in the form of a closing statement disclosing the subject property was purchased on March 16, 2013 for a price of \$24,000 or \$13.61 per square foot of living area, including land. The appellant, through his attorneys, asserts the sale was an arm's length transaction. The appellant did not complete Section IV – Recent Sale Data of the appeal. Based

on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,761. The subject's assessment reflects a market value of \$88,228 or \$50.02 per square foot of living area, land included, when using the 2014 three-year average median level of assessments for class 2 property of 9.93% under the Cook County Real Property Assessment Classification Ordinance as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three sales comparables. The sales occurred from January 2011 through March 2012 for prices ranging from \$109,000 to \$135,000, or from \$63.41 to \$108.78 per square foot of living area, respectively.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant claimed the sale of the subject was an arm's length transaction but the appellant did not complete Section IV - Recent Sale Data of the appeal. Therefore, the Board finds no evidence that the sale was arm's-length. Although the closing statement indicates the property was sold using a realtor, there is no evidence to indicate the parties to the transaction were not related nor that the property had been advertised on the open market, or how many days it had been on the market. The Board finds the best evidence of market value in the record to be the board of review's comparable sale #1. Less weight was given to comparables #2 and #3 based on dwelling size. Board of review comparable #1 was similar to the subject in location, style, construction, size, age and land area. This sale is somewhat dated but tends to call into question whether the subject's purchase price was indicative of fair cash value when comparing the differences in their purchase prices. The comparable sold for \$63.41 per square foot of living area, including land. The subject sold for \$13.61 per square foot of living area including land. The subject's assessment reflects a market value of \$50.02 per square foot of living area, including land, which is below the most similar comparable sale in this record. Based on this record the Board finds the subject's assessment is reflective of market value and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
