

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: IH2 Property Illinois, LP  
DOCKET NO.: 14-28934.001-R-1  
PARCEL NO.: 13-19-427-014-0000

The parties of record before the Property Tax Appeal Board are IH2 Property Illinois, LP, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,238  
**IMPR.:** \$22,162  
**TOTAL:** \$27,400

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a final decision of the Property Tax Appeal Board of Review pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) in order to challenge the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1½-story dwelling of frame construction with 2,426 square feet of living area. The dwelling is approximately 69 years old. Features of the home include a full unfinished basement, central air conditioning and a 1-car garage. The property has a 4,365 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on November 20, 2013 for a price of \$274,000. The dwelling was sold contract for deed, purchased from an individual through a realtor and was advertised through the Multiple Listing Service. The sale was not between family or related corporations. The appellant did not disclose how long the subject had

been on the market. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,059. The subject's assessment reflects a market value of \$320,590 or \$132.15 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted information on three sales comparables. The comparables had features with varying degrees of similarity when compared to the subject and ranged in size from 1,841 to 2,321 square feet of living area. These sales occurred from May 2013 through September 2013 for prices ranging from \$322,000 to \$398,000, or from \$143.94 to \$175.45 per square foot of living area.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant provided evidence that the subject property sold in November 2013 for a price of \$274,000 or \$112.94 per square foot of living area, including land. The board of review submitted three comparables which sold from May through September 2013 for prices ranging from \$143.94 to \$175.45 per square foot of living area including land. The Board gave less weight to the board of review comparables since they differed in lot size, construction, style, living area and/or features as compared to the subject. The Board finds the best evidence of market value to be the purchase of the subject property in November 2013 for a price of \$274,000. The appellant provided evidence demonstrating the sale had elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing that the property was sold by an individual, the parties to the transaction were not related, the property was sold using a realtor, and the property had been advertised on the open market through the Multiple Listing Service. In further support of the transaction the appellant submitted a copy of the settlement statement. The Board finds the purchase price is below the market value reflected by the assessment and that the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. Therefore, a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
