

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Burton Rast
DOCKET NO.: 14-29413.001-R-1
PARCEL NO.: 10-07-108-006-0000

The parties of record before the Property Tax Appeal Board are Burton Rast, the appellant, by John S. Xydakis of the Law Offices of John S. Xydakis, in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,944
IMPR.: \$21,038
TOTAL: \$27,982

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction with 1,583 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a crawl space foundation, central air conditioning and a two-car garage. The property has a 11,111 square foot site and is located in Glenview, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables. The comparables were improved with two, one-story dwellings and one, 1.5-story dwelling of frame, masonry or frame and masonry exterior construction. The dwellings are from 60 to 105 years old. Each comparable has a basement, one comparable has

central air conditioning and one comparable has a fireplace. Copies of photographs indicate two comparables have either a one-car or two-car attached garage. The dwellings range in size from 1,302 to 1,771 square feet of living area and have improvement assessments ranging from \$11,655 to \$14,196 or from \$8.02 to \$8.95 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$13,962 or \$8.82 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,982. The subject property has an improvement assessment of \$21,038 or \$13.29 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables were improved with one-story frame or frame and masonry dwellings that range in size from 1,403 to 1,733 square feet of living area. The dwellings are either 59 or 62 years old. Two comparables have either a partial or full unfinished basement, two comparables have a crawl space foundation, each comparable has central air conditioning, two comparables have a fireplace and each comparable has a 1.5-car or two-car garage. The comparables have improvement assessments that ranged from \$19,891 to \$24,977 or from \$14.18 to \$15.11 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables along with the board of review's comparables #1 and #4 based on their partial or full basements and/or 1.5-story design when compared to the subject's crawl space foundation and one-story design.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2 and #3. These comparables have varying degrees of similarity in location, design, age, dwelling size and features when compared to the subject property. These comparables had improvement assessments of either \$22,746 and \$24,880 or \$14.36 and \$14.88 per square foot of living area. The subject's improvement assessment of \$21,038 or \$13.29 per square foot of living area falls below that established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
