

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ellen Lieponis  
DOCKET NO.: 14-29503.001-R-1  
PARCEL NO.: 27-08-214-011-0000

The parties of record before the Property Tax Appeal Board are Ellen Lieponis, the appellant, by John S. Xydakis, of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,544  
**IMPR.:** \$28,038  
**TOTAL:** \$40,582

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry construction with 2,580 square feet of living area. The dwelling is 26 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 10,908 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on four equity comparables. The comparables were improved with one, two-story dwelling and three, one-story dwellings of frame and masonry exterior construction. The dwellings are from 23 to 25 years old. Each comparable has a basement, central air conditioning and a fireplace.

The appellant's attorney did not indicate in the assessment grid if there was a garage, but based on the photographs submitted each comparable has a two-car garage. The dwellings range in size from 1,978 to 2,300 square feet of living area and have improvement assessments ranging from \$13,719 to \$16,541 or from \$6.94 to \$7.47 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$18,653 or \$7.23 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,582. The subject property has an improvement assessment of \$28,038 or \$10.87 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code and within .25 of a mile from the subject property. The comparables were improved with two-story style dwellings of masonry and frame exterior construction that contain 2,580 square feet of living area. The dwellings are 24 or 26 years old. Each comparable has full unfinished basement, central air conditioning, a fireplace and a two-car garage. The comparables have improvement assessments ranging from \$31,037 to \$32,868 or from \$12.03 to \$12.74 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #3 and #4 based on their one-story design and appellant's comparable #2 based on its smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables are identical in dwelling size, design and some features along with being similar in location and age when compared to the subject property. These comparables have improvement assessments ranging from \$31,037 to \$32,868 or from \$12.03 to \$12.74 per square foot of living area. The subject's improvement assessment of \$28,038 or \$10.87 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
