

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rada Colakovic Bankers Trust LLC
DOCKET NO.: 14-29622.001-R-1
PARCEL NO.: 31-27-313-011-0000

The parties of record before the Property Tax Appeal Board are Rada Colakovic Bankers Trust LLC, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,373
IMPR.: \$6,781
TOTAL: \$9,154

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling¹ of frame exterior construction with 775 square feet of living area. The dwelling was constructed in 1973. Features of the home include a full finished basement and a two-car garage. The property has a 9,495 square foot site and is located in Richton Park, Rich Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance

The appellant's appeal is based on overvaluation. In support of the overvaluation argument, the appellant submitted eight comparable sales located within .56 of a mile from the subject property. The comparables consist of one-story dwellings that were constructed from 1969 to 1975. Each of the comparables have a full basement, one of which was not finished. The dwellings range in size from 720 to 775 square feet of living area. The comparables sold from

May 2013 to October 2014 for prices ranging from \$24,200 to \$47,600 or from \$31.23 to \$61.42 per square foot of living area including land. The submission also included a grid of "Property Equalization Values" purporting to adjust the comparables. Based on this evidence, the appellant requested the total assessment be reduced to \$4,590.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$9,154. The subject's assessment reflects a market value of \$91,540 or \$118.12 per square foot of living area, land included, when applying the 10% level of assessment for class 2 residential property pursuant to the Cook County Real Property Assessment Classification Ordinance. In support of the subject's assessment, the board of review submitted information on four sales comparables. Three of the comparables are located within the same neighborhood assessment code as the subject property. The comparables consist of multi-level dwellings² of frame or frame and masonry exterior construction that range in age from 29 to 47 years old. The dwellings range in size from 695 to 906 square feet of living area and are situated on sites ranging in size from 6,100 to 9,150 square feet of land area. These comparables sold from June 2012 to September 2013 for prices ranging from \$90,000 to \$132,500 or from \$99.34 to \$172.52 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the appellant failed to lay any foundation for the adjustments within the property equalization values grid and therefore the Board will give these adjustments no weight and will look solely to the raw sales data. The Board further questions the credibility of the appellant's Property Tax Analysis given their report appears to have been prepared by Pro Tax Appeal, without any showing of the assessment and/or appraisal qualifications of person(s) who prepared the analysis.

The parties submitted 12 comparable sales for the Board's consideration. The Board gave less weight to the board of review's comparables #1 and #2 due to their older sale dates. The Board finds the best evidence of market value in the record to be the appellant's comparables and the board of review's comparables #3 and #4. These comparables are similar in age, dwelling size, and other features. These comparables sold for prices ranging from \$24,200 to \$132,500 or from \$31.23 to \$172.52 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$91,540 or \$118.12 per square foot of living area including land which falls within the range established by the best sales comparables in this record. Based on this record the Board finds the subject's assessment is reflective of market value and a reduction in the subject's assessment is not justified.

² Photographs of the comparables submitted by the board of review appears to depict multi-level style dwellings.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
