

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeanette Van Der Veen
DOCKET NO.: 14-29743.001-R-1
PARCEL NO.: 29-14-156-035-0000

The parties of record before the Property Tax Appeal Board are Jeanette Van Der Veen, the appellant(s), by attorney William I. Sandrick, of Sandrick Law Firm LLC in South Holland; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,463
IMPR.: \$11,825
TOTAL: \$15,288

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of an approximately 27,704 square foot parcel of land improved with two improvements. The main improvement is a 118-year old, two-story, frame, single-family dwelling containing 1,456 square feet of building area. The property is located in Thornton Township, Cook County and is a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$86,000 as of January 1, 2014. The appraisal does not disclose the occupancy of the subject. The appraisal references the two improvements by describing the subject's use as "multiple single-family residence." The appraisal discloses that only an exterior inspection of the subject was

performed. The appraiser opined that there was “no noted repairs needed at the time of inspection.”

The appraiser undertook the sales comparison approach to value. In that approach, the appraiser analyzed six sales from .20 to 3.84 miles from the subject. These properties sold from October to December 2013 for prices ranging from \$17.48 to \$35.42 per square foot of building area. The appraiser made limited adjustments for some factors. The appellant requests an assessment based on 10% of the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,444. The subject's assessment reflects a market value of \$154,440 or \$106.07 per square foot of building area of the main improvement using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the assessment the board of review submitted raw sales data on four comparables. The properties sold between March and July 2013 for prices ranging from \$85.97 to \$141.18 per square foot of building area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board thoroughly considered the parties' evidence. The Board gives diminished weight to the appraisal because the appraiser did not inspect the subject's interior and opined a condition for the subject without making any observation of the interior of subject. Moreover, the appraiser determined there was no noted repairs needed, but did not inspect the interior in order to make this determination. Moreover, the appraisal does not describe the second improvement for the subject or any of the comparables and no adjustments are made to the comparables for any differences in the second improvements. For these reasons, the Board gives the adjustments and the conclusion of value within the appraisal no weight.

The courts have stated that where there is credible evidence of comparable sales, these sales are to be given significant weight as evidence of market value. Chrysler Corp. v. Illinois Property Tax Appeal Board, 69 Ill.App.3d 207 (2nd Dist. 1979); Willow Hill Grain, Inc. v. Property Tax Appeal Board, 187 Ill.App.3d 9 (5th Dist. 1989). Therefore, the Board will consider the raw sales data from both parties along with the subject's sale information.

The parties submitted 10 sale comparables. The Board finds the appellant's comparables #1, #2, #4, and #6 and the board of review's comparables #1, #2, and #3 similar to the subject and most probative in determining the subject's market value as of the lien date. These sales occurred from March to December 2013 for prices ranging from \$17.48 to \$105.95 per square foot of building area. The subject's current assessment reflects a market value of \$106.07 per square foot of building area for the main improvement. Adjustments to the comparables for pertinent factors, the

Board finds the subject's current assessment is not supported by the market and a reduction in the assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
