

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: F. Dean Armstrong
DOCKET NO.: 14-32443.001-R-1
PARCEL NO.: 31-01-420-036-0000

The parties of record before the Property Tax Appeal Board are F. Dean Armstrong, the appellant(s), by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 1,284
IMPR.: \$ 15,101
TOTAL: \$ 16,385

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a two-story mixed-use building of masonry construction with 3,000 square feet of building area. The building is 87 years old. Features of the building include a partial unfinished basement and a three-car garage. The property has a 3,125 square foot site, and is located in Flossmoor, Rich Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$165,000 as of January 1, 2014. The appraisal states that the units within the subject are both vacant, and, therefore, the subject is not owner occupied. The appraisal further states that the subject was purchased, and that a deed reflecting this purchase was recorded on August 5, 2011 with no

purchase price listed. Moreover, the subject was listed for sale on the MLS on May 15, 2014 for a listing price of \$450,000. The appraiser discounted this listing, and did not utilize it valuing the subject, as the subject was listed after the report's date of valuation. No further information or analysis was provided regarding the sale of the subject in 2011, or the listing of the subject on the MLS in 2014. The appellant requested that the applicable three year average median level of assessment for class 2 property be applied to the appraisal's estimate of market value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,256. The subject's assessment reflects a market value of \$274,481, or \$91.49 per square foot of building area, when applying the 2014 three year average median level of assessment for class 2 property of 9.93% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on one equity comparable.

In rebuttal, the appellant reaffirmed the evidence previously submitted, argued that the board of review's comparable should be given no weight in the Board's analysis because it did not address the appellant's market value argument and, in any case, supported a reduction in the subject's assessment, and waived the original request for an oral hearing.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The subject's assessment reflects a market value above the best evidence of market value in the record. The Board finds the subject property had a market value of \$165,000 as of the assessment date at issue. Since market value has been established the 2014 three year average median level of assessment for class 2 property of 9.93% as determined by the Illinois Department of Revenue shall apply. 86 Ill.Admin.Code §1910.50(c)(2).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
