

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jaser Khader
DOCKET NO.: 15-00255.001-R-1
PARCEL NO.: 11-04-07-305-077

The parties of record before the Property Tax Appeal Board are Jaser Khader, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Will County Board of Review** is warranted. The correct assessed valuation of the property is:

LAND: \$16,397
IMPR.: \$50,142
TOTAL: \$66,539

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame exterior construction with 2,370 square feet of living area. The dwelling was constructed in 2000. Features of the home include a basement, central air conditioning, a fireplace and a 400 square foot garage. The property is located in Romeoville, Lockport Township, Will County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on eight equity comparables located within .70 of a mile from the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 2,368 to 3,410 square feet of living area and have improvement assessments ranging from \$37,035 to \$58,436 or from \$12.24 to \$18.68 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$57,018.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,539. The subject property has an improvement assessment of \$50,142 or \$21.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood assessment code as the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 2,080 to 2,342 square feet of living area and have improvement assessments ranging from \$41,866 to \$49,549 or from \$19.66 to \$21.16 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The board of review also submitted information from the township assessor asserting that all of the appellant's comparables had incorrect information in the appellant's grid analysis. Using what the assessor indicated, the correct improvement assessments of the appellant's comparables would range from \$17.62 to \$21.09 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of 12 suggested equity comparables for the Board's consideration. The Board finds the appellant's comparability analysis had incorrect information in the grid analysis, and therefore received reduce weight. The Board finds the board of review's comparables are similar when compared to the subject in location, age, dwelling size, design, exterior construction and features. These comparables had improvement assessments that ranged from \$19.66 to \$21.19 per square foot of living area. The subject's improvement assessment of \$21.16 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
