

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Benjamin & Meghan Darnell  
DOCKET NO.: 15-00316.001-R-1  
PARCEL NO.: 19-09-31-207-035-0000

The parties of record before the Property Tax Appeal Board are Benjamin & Meghan Darnell, the appellants; and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Will County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$28,207  
**IMPR.:** \$103,592  
**TOTAL:** \$131,799

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of brick and frame exterior construction with 3,674 square feet of living area. The dwelling is approximately seven years old. Features of the home include a basement, central air conditioning, a fireplace and an 812 square foot garage. The property has a 16,975 square foot site and is located in Frankfort, Frankfort Township, Will County.

The appellants contend assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within .40 of a mile from the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 3,189 to 4,381 square feet of living area and have improvement assessments ranging from \$76,095 to \$100,496 or from \$21.77 to \$25.93 per square foot of living area. Based on this evidence, the appellants requested the total assessment be reduced to \$116,897.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$131,799. The subject property has an improvement assessment of \$103,592 or \$28.20 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within .05 of a mile from the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 2,719 to 3,672 square feet of living area and have improvement assessments ranging from \$86,662 to \$131,570 or from \$31.87 to \$35.83 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The board of review also submitted a statement from the township assessor asserting that the appellants have used comparables with dissimilar dwelling designs.

The appellants submitted a rebuttal brief critiquing the board of review submission. The appellants asserted the assessor's comparables #2 and #3 have the same dwelling design as the appellants comparable #1. Furthermore, the appellants asserted the assessor's comparables have more improvements and are upgraded models.

### **Conclusion of Law**

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration. The Board gave less weight to the appellants' comparable #2 and the board of review's comparables #2 through #4 due to their difference in dwelling size when compared to the subject property. The Board finds the appellants' comparables #1, #3 and #4 and the board of review's comparable #1 are similar when compared to the subject in location, age, dwelling size, design and features. These comparables had improvement assessments that ranged from \$23.86 to \$35.83 per square foot of living area. The subject's improvement assessment of \$28.20 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
