

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Abu & Farah Zaidi  
DOCKET NO.: 15-01353.001-R-1  
PARCEL NO.: 06-17-301-003

The parties of record before the Property Tax Appeal Board are Abu & Farah Zaidi, the appellants, by attorney Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the Kane County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Kane** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$21,124  
**IMPR.:** \$58,876  
**TOTAL:** \$80,000

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a part 1-story and part 2-story dwelling of frame construction with 3,110 square feet of living area. The dwelling was constructed in 2005. Features of the home include a full unfinished basement, central air conditioning and a 540 square foot attached garage. The property has an 8,875 square foot site and is located in Elgin, Elgin Township, Kane County.

The appellants' appeal is based on overvaluation. In support of this argument the appellants submitted a Settlement Statement disclosing the subject property was purchased on February 9, 2015 for a price of \$240,000 or \$77.17 per square foot of living area, including land. The dwelling was purchased from Fannie Mae a/k/a Federal National Mortgage Association and a commission was paid to a realtor. The appellants completed Section IV - Recent Sale Data of the appeal disclosing that the property was advertised through sign, internet and/or auction and

that the sale was not between family or related corporations. The appellants did not disclose in Section IV how many days the subject had been on the market nor that the subject was a foreclosure. Based on this evidence, the appellants requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$88,591. The subject's assessment reflects a market value of \$265,959 or \$85.52 per square foot of living area, land included, when using the 2015 three-year average median level of assessment for Kane County of 33.31% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three comparable sales. They are described as part 1-story and part 2-story dwellings of frame or frame and masonry construction built in 2004 or 2008. They range in size from 3,066 to 3,247 square feet of living area. They feature basements, central air conditioning, and garages. Two have fireplaces. These comparables sold between July 2012 and November 2014 for prices ranging from \$270,000 to \$285,000 or from \$86.15 to \$92.30 per square foot of living area land included. The board of review disclosed that the subject property had been on the market for 564 days and sold as a special warranty deed.

In rebuttal, the appellants' counsel claims the board of review does not dispute the recent sale of the subject, nor does it provide any evidence that the recent sale was not valid.

### **Conclusion of Law**

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

The appellants provided evidence that the subject property sold out of foreclosure in February 2015 for a price of \$240,000 or \$77.17 per square foot of living area, including land. The Board finds the appellants provided evidence demonstrating the sale had elements of an arm's length transaction. The appellants submitted a Settlement Statement and completed Section IV - Recent Sale Data of the appeal disclosing that the property was purchased from Fannie Mae, the parties to the transaction were not related, the property was sold using a realtor and the property had been advertised on the open market. The board of review disclosed the subject had been on the market 564 days. The Board finds the best evidence of market value to be the purchase of the subject property in February 2015 for a price of \$240,000. The Board finds the purchase price is below the market value reflected by the assessment and that the board of review did not present any substantive evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. The Board gave less weight to the board of review comparable sales. These sales do not overcome the subject's arm's-length sale price. Therefore, a reduction in the subject's assessment to reflect the purchase price is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
