

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jack Lentz
DOCKET NO.: 15-01399.001-R-1
PARCEL NO.: 08-22-207-003

The parties of record before the Property Tax Appeal Board are Jack Lentz, the appellant, by Jessica Hill-Magiera, Attorney at Law, in Lake Zurich; and the Kane County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Kane** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,698
IMPR.: \$173,616
TOTAL: \$193,314

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story story dwelling of frame and masonry construction with 4,471 square feet of living area. The dwelling was constructed in 2004. Features of the home include a full basement with finished area, central air conditioning, a fireplace and an 819 square foot garage. The property has a 49,278 square foot site and is located in St. Charles, Campton Township, Kane County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant completed Section IV - Recent Sale Data of the appeal and submitted a Settlement Statement disclosing the subject property was purchased from an individual on October 27, 2014 for a price of \$580,000 or \$129.72 per square foot of living area, including land. The sale was not between family or related corporations, commissions were paid to two realtors, and the sale was advertised through the Multiple Listing Service. The appellant also submitted an MLS Listing Sheet for the subject indicating the subject was not a foreclosure or a short sale and had been on

the market 140 days. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$205,166. The subject's assessment reflects a market value of \$615,929 or \$137.76 per square foot of living area, land included, when using the 2015 three-year average median level of assessment for Kane County of 33.31% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three comparable sales. They are 2-story dwellings of frame and masonry construction built between 2001 and 2012. They range in size from 3,401 to 3,935 square feet of living area and feature basements, central air conditioning, fireplaces and garages. These comparables sold from October 2013 through June 2015 for prices ranging from \$495,000 to \$622,500 or from \$145.55 to \$169.61 per square foot of living area land included. Based on this evidence and argument, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant claims the board of review does not dispute the recent sale of the subject, nor does it provide any evidence that the recent sale was not valid.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The appellant provided evidence that the subject property sold in October 2014 for a price of \$580,000 or \$129.72 per square foot of living area, including land. The Board finds the appellant provided evidence demonstrating the sale had elements of an arm's length transaction. The appellant submitted a Settlement Statement and completed Section IV - Recent Sale Data of the appeal disclosing that the property was purchased from an individual, the parties to the transaction were not related, the property was sold using two realtors, the property had been advertised and had been on the market 140 days. The Board finds the best evidence of market value to be the purchase of the subject property in October 2014 for a price of \$580,000. The Board finds the purchase price is below the market value reflected by the assessment and that the board of review did not present any substantive evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. The Board gave less weight to the board of review comparable sales based on their differences in dwelling size as compared to the subject. These sales do not overcome the subject's arm's-length sale price. Therefore, a reduction in the subject's assessment commensurate with the appellant's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
