

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Daniel
DOCKET NO.: 15-02511.001-R-1
PARCEL NO.: 13-12-401-021

The parties of record before the Property Tax Appeal Board are Paul Daniel, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$70,634
IMPR.: \$286,574
TOTAL: \$357,208

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of stone exterior construction with 6,124 square feet of living area. The dwelling was constructed in 1991. Features of the home include a finished basement, central air conditioning, five fireplaces and a 1,019 square foot garage. The property has a 45,266 square foot site and is located in North Barrington, Cuba Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within .39 of a mile from the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The comparables were improved with two-story dwellings that range in size from 5,765 to 6,382 square feet of living area and have improvement assessments ranging from \$232,567 to \$258,841 or from \$39.63 to \$40.72 per square foot of

living area. Based on this evidence, the appellant requested the total assessment be reduced to \$317,002.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$357,208. The subject property has an improvement assessment of \$286,574 or \$46.80 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within .75 of a mile from the subject property. The comparables had features with varying degrees of similarity when compared to the subject. The comparables were improved with two-story dwellings that range in size from 4,946 to 6,803 square feet of living area and have improvement assessments ranging from \$232,172 to \$318,107 or from \$45.53 to \$46.94 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of seven suggested equity comparables for the Board's consideration. The Board gave less weight to the board of review's comparable #3 due to its smaller dwelling size when compared to the subject property. The Board finds the appellant's comparables and the board of review's comparables #1, #2 and #4 are similar when compared to the subject in location, age, dwelling size, design and features. These comparables had improvement assessments that ranged from \$39.63 to \$46.76 per square foot of living area. The subject's improvement assessment of \$46.80 per square foot of living area falls slightly above the range established by the best comparables in this record, which is justified when considering the subject's greater finished basement area, superior number of fireplaces and superior number of bathrooms in contrast to the comparables. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
