

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Matthew Rooney
DOCKET NO.: 15-02791.001-R-1
PARCEL NO.: 15-23-211-015

The parties of record before the Property Tax Appeal Board are Matthew Rooney, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$62,516
IMPR.: \$255,130
TOTAL: \$317,646

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick construction with 4,920 square feet of living area. The dwelling was constructed in 2007. Features of the dwelling include an unfinished basement, central air conditioning, 2 fireplaces and a 748 square foot garage. The property is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on six comparable sales. These comparables are described as 2-story dwellings of brick or frame construction built between 1986 and 1998. They range in size from 4,472 to 4,784 square feet of living area. They feature basements, five with finished area, central air conditioning, 1-3 fireplaces and garages that range in size from 660 to 911 square feet of building area. They are located a distance of .72 to 4.94 miles from the subject. These comparables sold between May 2014 and July 2015 for prices ranging from \$495,000 to

\$810,000 or from \$107.61 to \$170.17 per square foot of living area land included. The appellant requested the total assessment be reduced to \$277,132 or a market value of approximately \$831,479 or \$169.00 per square foot of living area including land at the statutory level of assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$317,646. The subject's assessment reflects a market value of \$957,342 or \$194.58 per square foot of living area, land included, when using the 2015 three-year average median level of assessment for Lake County of 33.18% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on eight comparable sales. They are described as 2-story dwellings of brick or frame construction built between 1994 and 2015. They range in size from 4,640 to 5,496 square feet of living area. They feature basements, six with finished area, central air conditioning, 1-3 fireplaces and garages that range in size from 758 to 1,126 square feet of building area. They are located a distance of .14 to 1.71 miles from the subject. These comparables sold between January 2014 and October 2015 for prices ranging from \$900,000 to \$1,225,000 or from \$189.19 to \$253.23 per square foot of living area land included.

Based on this evidence and argument, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted 14 different comparable sales for the Board's consideration. The Board gave less weight to the appellant's comparables based on distance from the subject of over three miles and/or finished basements as compared to the subject's unfinished basement. The Board also gave less weight to board of review comparables #1, #2, #3, #5, #6 and #8 based their finished basements as compared to the subject's unfinished basement. Although comparable #7 is 1.6 miles from the subject, the Board finds the best evidence of market value in the record to be board of review comparables #4 and #7. These comparables were similar to the subject in exterior construction, age, style, dwelling size, basement finish and other features. They sold proximate in time to the subject's assessment date for \$900,000 and \$1,225,000 or for \$189.19 and \$232.67 per square foot of living area, including land, respectively. The subject's assessment reflects a market value of \$957,342 or \$194.58 per square foot of living area, including land, which is supported by these most similar comparables on both a total market value basis as well as a per square foot basis. Based on this evidence the Board finds a reduction in the subject's assessment based on overvaluation is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
