

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Galina Shogan
DOCKET NO.: 15-02908.001-R-1
PARCEL NO.: 15-08-401-041

The parties of record before the Property Tax Appeal Board are Galina Shogan, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,175
IMPR.: \$144,453
TOTAL: \$173,628

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick exterior construction with 3,465 square feet of living area. The dwelling was constructed in 1989. Features of the home include a finished basement, central air conditioning, a fireplace and a 460 square foot garage. The property is situated on a 15,695 square foot site and is located in Vernon Hills, Vernon Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within .89 of a mile from the subject property. The comparables were improved with one-story dwellings that were built in 1988 or 1989. The dwellings had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 3,124 to 3,528 square feet of living area and have improvement assessments ranging from \$120,413 to \$150,076 or from \$38.54 to \$42.54 per square foot of living area. A memo from the appellant argued the comparables had

many similar features but lack proximity. Based on this evidence, the appellant requested the total assessment be reduced to \$173,628.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$209,803. The subject property has an improvement assessment of \$180,628 or \$52.13 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within .41 of a mile from the subject property. The comparables were improved with one-story dwellings that were built from 1989 to 1993. The dwellings had features with varying degrees of similarity when compared to the subject. The dwellings contain 2,702 or 2,792 square feet of living area and have improvement assessments ranging from \$133,839 to \$150,643 or from \$49.53 to \$53.96 per square foot of living area. The board of review submission included property record cards for the subject and its three equity comparables. The board of review submission also included a memo from the township assessor asserting that the appellant's comparables lacked proximity. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The appellant in a memo argued that comparable properties were found on the Lake County website by "pre-filtering" comparables to match the subject property.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 due to its unfinished basement when compared to the subject property. The Board also gave less weight to the board of review's comparables due to their smaller dwelling size when compared to the subject property. The Board finds the appellant's comparables #1 and #2 are more similar when compared to the subject in age, dwelling size, design, exterior construction and other features. These comparables had improvement assessments of \$39.91 or \$42.54 per square foot of living area. The subject's improvement assessment of \$52.13 per square foot of living area falls above the best comparables in this record. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
