

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Renee Solomon  
DOCKET NO.: 15-03029.001-R-1  
PARCEL NO.: 16-26-101-146

The parties of record before the Property Tax Appeal Board are Renee Solomon, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$110,070  
**IMPR.:** \$304,030  
**TOTAL:** \$414,100

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction that has 4,856 square feet of living area. The dwelling was built in 2000. Features include an unfinished basement, central air conditioning, a fireplace and an 864 square foot attached garage. The subject property is located in Moraine Township, Lake County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity claim, the appellant submitted three assessment comparables located within .51 of a mile from the subject. The comparables had varying degrees of similarity when compared to the subject. The comparables have improvement assessments ranging from \$226,371 to \$313,315 or from \$48.49 to \$57.09 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$414,100. The subject property has an improvement assessment of \$304,030 or \$62.61 per square foot of living area.

In support of the subject's assessment, the board of review submitted four assessment comparables located within .30 of a mile from the subject. The comparables had varying degrees of similarity when compared to the subject. The comparables have improvement assessments ranging from \$326,398 to \$361,648 or from \$64.90 to \$69.72 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Under rebuttal, the appellant argued the comparables submitted by the board of review have finished basements, three comparables have additional bathrooms, two comparables have an additional fireplace and comparable #2 has a larger basement when compared to the subject. The appellant contends significant negative adjustments should be made when comparing these homes to the subject.<sup>1</sup>

### **Conclusion of Law**

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof.

The record contains seven assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant. Comparable #1 is larger in dwelling size and comparables #2 and #3 are smaller in dwelling size when compared to the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size, but have some superior features when compared to the subject. They have improvement assessments ranging from \$326,398 to \$361,648 or from \$64.90 to \$69.72 per square foot of living area. The subject property has an improvement assessment of \$304,030 or \$62.61 per square foot of living area, which falls below the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

<sup>1</sup>The Board takes notice the comparables submitted by the appellant also have finished basements, more bathrooms and two comparables have an additional fireplace(s) when compared to the subject.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
