

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pastor E. Hernandez
DOCKET NO.: 15-03735.001-R-1
PARCEL NO.: 04-31-314-001

The parties of record before the Property Tax Appeal Board are Pastor E. Hernandez, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,650
IMPR.: \$43,377
TOTAL: \$54,027

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction that has 1,608 square feet of living area. The dwelling was constructed in 1992. The home features a full unfinished basement and a 720 square foot garage. The subject has a 31,839 square foot site. The subject property is located in Benton Township, Lake County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation and assessment inequity as the bases of the appeal. In support of these arguments, the appellant submitted three comparables located from 3.99 to 4.18 miles from the subject. The comparables consist of two-story dwellings of aluminum or wood siding exterior construction that were built in 1994 or 1999. One comparable has a full unfinished basement and two comparables do not have a basement. Three comparables have central air conditioning, two comparables have a fireplace and each comparable has a garage that contain 380 or 440 square feet of building area. The dwellings range in size from 1,728 to 1,830 square feet of living area and are situated on

sites that contain from 10,006 to 10,011 square feet of land area. The comparables sold from April 2013 to March 2015 for prices ranging from \$64,000 to \$85,050 or from \$37.04 to \$47.57 per square foot of living area including land. The comparables have improvement assessments ranging from \$28,417 to \$34,159 or from \$16.27 to \$19.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$54,027. The subject's assessment reflects an estimated market value of \$162,830 or \$101.26 per square foot of living area including land area when applying Lake County's 2015 three-year average median level of assessment of 33.18%. The subject has an improvement assessment of \$43,377 or \$26.98 per square of living area.

In support of the subject's assessment, the board of review submitted four comparables located from .65 to 1.57 miles from the subject. The comparables consist of two-story dwellings of wood or aluminum siding exterior construction that were built from 1990 to 1997. The comparables have unfinished basements, central air conditioning, one fireplace and each comparable has a garage that contains from 440 to 485 square feet of building area. The dwellings range in size from 1,428 to 1,686 square feet of living area and are situated on sites that contain from 11,844 to 32,369 square feet of land area. Three of the comparables sold in December 2013 or July 2015 for prices ranging from \$168,000 to \$203,000 or from \$99.64 to \$128.32 per square foot of living area including land. The comparables have improvement assessments ranging from \$34,617 to \$49,195 or from \$20.53 to \$31.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation as a basis of the appeal. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof.

The parties submitted six comparable sales for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant due to their distant location when compared to the subject. Additionally, comparables #2 and #3 do not have a basement, inferior to the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, land area, design, age, dwelling size and features. They sold in December 2013 or July 2015 for prices ranging from \$168,000 to \$203,000 or from \$99.64 to \$128.32 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$162,830 or \$101.26 per square foot of living area including land, which falls within the range established by the most similar comparable sales contained in the record. After considering any necessary adjustments to the comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

The taxpayer also argued assessment inequity as an alternative basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof.

The record contains seven assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant due to their distant location when compared to the subject. Additionally, comparables #2 and #3 do not have a basement, inferior to the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments ranging from \$34,617 to \$49,195 or from \$20.53 to \$31.06 per square foot of living area. The subject property has an improvement assessment of \$43,377 or \$26.98 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
