

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Celia Garcia
DOCKET NO.: 15-03739.001-R-1
PARCEL NO.: 16-15-209-033

The parties of record before the Property Tax Appeal Board are Celia Garcia, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,130
IMPR.: \$36,378
TOTAL: \$50,508

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one and one-half story dwelling of wood siding exterior construction that has 1,280 square feet of living area. The dwelling was constructed in 1913. The home features an unfinished basement and a 616 square foot detached garage. The subject has a 3,300 square foot site. The subject property is located in Moraine Township, Lake County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation and assessment inequity as the bases of the appeal. In support of these arguments, the appellant submitted three comparables located from 16.77 to 17.70 miles from the subject. The comparables consist of one-story or one and one-half story dwellings of brick, aluminum or wood siding exterior construction that were built from 1912 to 1938. The comparables have unfinished basements, one comparable has central air conditioning, and each comparable has a garage that contain from 384 to 728 square feet of building area. The dwellings range in size

from 1,322 to 1,408 square feet of living area and are situated on sites that contain from 8,800 to 12,012 square feet of land area. The comparables sold from April 2013 to May 2015 for prices ranging from \$34,000 to \$46,515 or from \$24.15 to \$35.19 per square foot of living area including land. The comparables have improvement assessments ranging from \$16,641 to \$22,454 or from \$11.82 to \$16.98 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$50,508. The subject's assessment reflects an estimated market value of \$152,224 or \$118.34 per square foot of living area including land area when applying Lake County's 2015 three-year average median level of assessment of 33.18%. The subject has an improvement assessment of \$36,378 or \$28.42 per square of living area.

In support of the subject's assessment, the board of review submitted four comparables located from .13 to .29 of a mile from the subject. The comparables consist of one and one-half or two-story dwellings of brick, stucco, vinyl or wood siding exterior construction that were built from 1910 to 1940. The comparables have unfinished basements, two comparables have central air conditioning, one comparable has a fireplace and three comparables have a garage that contain from 484 to 882 square feet of building area. The dwellings range in size from 1,152 to 1,680 square feet of living area and are situated on sites that contain from 3,844 to 8,965 square feet of land area. The comparables sold from May 2013 to November 2014 for prices ranging from \$175,000 to \$230,000 or from \$119.54 to \$151.91 per square foot of living area including land. The comparables have improvement assessments ranging from \$34,745 to \$45,393 or from \$26.88 to \$33.77 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation as a basis of the appeal. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof.

The parties submitted seven comparable sales for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant due to their distant location from 16.77 to 17.70 miles from the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, land area, design, age, dwelling size and features. They sold from May 2013 to November 2014 for prices ranging from \$175,000 to \$230,000 or from \$119.54 to \$151.91 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$152,224 or \$118.93 per square foot of living area including land, which falls below the range established by the most similar comparable sales contained in the record. After considering any necessary adjustments to the comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

The taxpayer also argued assessment inequity as an alternative basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof.

The record contains nine assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant due to their distant location from 16.77 to 17.70 miles from the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments ranging from \$34,745 to \$45,393 or from \$26.88 to \$33.77 per square foot of living area. The subject property has an improvement assessment of \$36,378 or \$28.42 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
