

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Linda Conde
DOCKET NO.: 15-03830.001-R-1
PARCEL NO.: 04-28-423-007

The parties of record before the Property Tax Appeal Board are Linda Conde, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,039
IMPR.: \$27,041
TOTAL: \$35,080

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of wood siding construction that has 1,040 square feet of living area. The dwelling was built in 1976. Features include an unfinished basement, central air conditioning and a 936 square foot garage. The subject property is located in Benton Township, Lake County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted three assessment comparables. The comparables are located from .11 to .48 of a mile from the subject. The comparables are comprised of one-story dwellings of wood siding exterior construction that are from 40 to 45 years old. The comparables have unfinished basements, one comparable has central air conditioning and two comparables have garages that contain 440 and 730 square feet of building area, respectively. The dwellings contain 1,040 square feet of living area and have improvement assessments ranging from

\$19,973 to \$25,987 or from \$19.20 to \$24.99 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$37,801. The subject property has an improvement assessment of \$29,762 or \$28.62 per square foot of living area.

In support of the subject's assessment, the board of review submitted four assessment comparables located from .97 to 1.32 miles from the subject. The comparables consist of one-story dwellings of wood siding exterior construction that were built from 1968 to 1986. The comparables have unfinished basements, two comparables have central air conditioning, one comparable has a fireplace and all the comparables have garages that range in size from 528 to 780 square feet of building area. The dwellings range in size from 1,056 to 1,074 square feet of living area and have improvement assessments ranging from \$28,104 to \$30,387 or from \$26.61 to \$28.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof.

The record contains seven assessment comparables for the Board's consideration. As an initial matter, the Board finds both parties' comparables support a reduction in the subject's assessment. They have improvement assessments ranging from \$19.20 to \$28.56 per square of living area. The subject property has an improvement assessment of \$28.62 per square foot of living area, greater than all the comparables contained in the record on a per square foot basis.

The Board gave less weight to comparable #1 submitted by the appellant due to its inferior features when compared to the subject. The Board gave less weight to the comparables submitted by the board of review due to their distant location when compared to the subject. Additionally, board of review comparables #2 and #4 are newer in age when compared to the subject. The Board finds the two remaining comparables are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments of \$25,097 and \$25,987 or \$24.13 and \$24.99 per square foot of living area. The subject property has an improvement assessment of \$29,762 or \$28.62 per square foot of living area, which is greater than the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is excessive. Therefore, a reduction in the subject's improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
