

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Donald Chitnis
DOCKET NO.: 15-05036.001-R-1
PARCEL NO.: 08-20-404-007

The parties of record before the Property Tax Appeal Board are Donald Chitnis, the appellant, by attorney Dennis D. Koonce, Attorney at Law in Frankfort; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$50,430
IMPR.: \$62,903
TOTAL: \$113,333

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part two-story and part one-story dwelling of frame construction with 2,444 square feet of living area. The dwelling was constructed in 1977. Features of the home include a partial basement with some finished area, central air conditioning, a fireplace and a 593 square foot garage. The property has a 12,137 square foot site and is located in Naperville, Lisle Township, DuPage County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on June 27, 2014 for a price of \$340,000 or \$139.12 per square foot of living area, land included. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$125,430. The subject's assessment reflects a market value of \$376,667 or \$154.12 per square foot of living area, land included, when using the 2015 three-year average median level of assessment for DuPage County of 33.30% as determined by the Illinois Department of Revenue. In support of its contention of the correct assessment, the board of review submitted information on four comparable sales. The comparables were located from 0.10 to 0.27 miles from the subject property. The comparables are situated on sites containing from 10,560 to 12,976 square feet of land area. The comparables consist of two-story or part two-story and part one-story dwellings. The dwellings were constructed in 1977 or 1978 and contain from 2,117 to 2,282 square feet of living area. The comparables sold from June 2014 to June 2015 for prices that ranged from \$397,500 to \$459,000 or from \$187.32 to \$210.16 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in June 2014 for a price of \$340,000 or \$139.12 per square foot of living area, land included. The appellant provided ample evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal form disclosing the seller was an individual; the parties to the transaction were not related; the property was sold using a realtor; the property had been advertised on the open market with the Multiple Listing Service (MLS); and it had been on the market for 71 days prior to its sale. In further support of the transaction, the appellant submitted a copy of the settlement statement and the MLS listing sheet. The MLS information disclosed the subject property's listing history. The subject property was originally listed for sale at \$398,500 but did not sell. On March 7, 2014, the subject property was listed for sale at a price of \$349,500. After 71 days on the market, the subject property sold for a price of \$340,000. The Board finds the subject's purchase price is below its market value reflected by the assessment.

The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction and was not able to refute the contention that the purchase price was reflective of market value. The board of review submitted information on four comparable sales that sold from June 2014 to June 2015 for prices that ranged from \$397,500 to \$459,000 or from \$187.32 to \$210.16 per square foot of living area, land included. Although the board of review comparables were similar to the subject and sold proximate to the assessment date, the Board finds the June 2014 sale of the subject property to be a more accurate indicator of the subject's market value as of the January 1, 2015 assessment date. Based on this record, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
