

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brian Davies  
DOCKET NO.: 15-05262.001-R-1  
PARCEL NO.: 08-20-301-034

The parties of record before the Property Tax Appeal Board are Brian Davies, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$65,650  
**IMPR.:** \$174,700  
**TOTAL:** \$240,350

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a part one-story and part two-story dwelling of frame exterior construction with 4,074 square feet of living area.<sup>1</sup> The dwelling was constructed in 1986. Features of the home include a partial finished basement, central air conditioning, two fireplaces and a 618 square foot garage. The property has a 18,668 square foot site and is located in Naperville, Lisle Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of the equity argument the appellant submitted information on three equity comparables located within .08 of mile from the subject property. The comparables are improved with part one-story and part two-

<sup>1</sup> The appellant indicated the subject dwelling had 4,062 square feet of living area while the board of review indicated the dwelling has 4,074 square feet of living area. The Board finds the best evidence of size to be the board of review's schematic diagram of the dwelling size.

story dwellings of frame or brick exterior construction that were constructed in 1985 or 1986. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 3,720 to 4,343 square feet of living area and have improvement assessments ranging from \$121,000 to \$156,990 or from \$32.53 to \$38.59 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$210,893.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$240,350. The subject property has an improvement assessment of \$174,700 or \$42.88 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within .20 of a mile from the subject property. The comparables are improved with part one-story and part two-story dwellings of frame exterior construction that were constructed from 1985 to 1988. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 3,793 to 4,451 square feet of living area and have improvement assessments ranging from \$162,430 to \$187,960 or \$42.16 to \$43.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 and the board of review's comparable #3 due to their lack of a finished basement which is inferior when compared to the subject's partial finished basement. The Board finds the appellant's comparables #1 and #2 and the board of review's comparables #1 and #2 are similar when compared to the subject in location, age, dwelling size, design and features. These comparables had improvement assessments that ranged from \$32.53 to \$43.60 per square foot of living area. The subject's improvement assessment of \$42.88 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
