

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tirell, LLC  
DOCKET NO.: 15-05336.001-R-1  
PARCEL NO.: 03-29-414-029

The parties of record before the Property Tax Appeal Board are Tirell, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC in Chicago, and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$25,060  
**IMPR.:** \$25,370  
**TOTAL:** \$50,430

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of frame and brick exterior construction with 1,095 square feet of living area. The dwelling was constructed in 1964. Features of the home include a concrete slab foundation, central air conditioning and an attached one-car garage of 279 square feet of building area. The property has a 6,554 square foot site and is located in Addison, Addison Township, DuPage County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on February 13, 2013 for a price of \$116,500. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$50,430. The subject's assessment reflects a market value of \$151,441 or \$138.30 per square foot of living area, land included, when using the 2015 three year average median level of assessment for DuPage County of 33.30% as determined by the Illinois Department of Revenue.

In response to the appeal, the board of review through the township assessor asserted that the subject's 2014 assessment was reduced considering the sale price. The assessing officials further contend the "home is no longer in same condition as time of purchase. Rehabbed without permits and now a rental at \$1,749 per month."

In support of its contention of the correct assessment the board of review through the township assessor submitted information on eight comparable sales, two of which are located in the same neighborhood code assigned by the assessor as the subject property. The comparables consist of one-story brick or frame and brick dwellings that were built between 1957 and 1972. The homes range in size from 1,026 to 1,521 square feet of living area. Five of the comparables have full basements, one of which also has finished area. Each comparable has a garage of ranging in size from 273 to 576 square feet of building area. The properties sold between May 2014 and September 2015 for prices ranging from \$142,000 to \$225,000 or from \$138.18 to \$158.87 per square foot of living area, including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted evidence of the February 2013 sale of the subject along with eight suggested comparable sales to support their respective positions before the Property Tax Appeal Board. The Board gave little weight to the subject's sale due to the fact the sale did not occur proximate in time to the assessment date at issue and failed to provide evidence of the length of time the property was exposed on the open market. The Board also gave reduced weight to board of review comparables #3 through #8; comparable #3 was much larger than the subject dwelling and comparable #4 through #8 each have full basements which is not a feature of the subject dwelling that has a concrete slab foundation.

The Board finds the best evidence of market value in the record to be comparable sales #1 and #2 submitted by the board of review. These comparables were similar to the subject in style, construction, size, features, age and/or land area. These properties also sold more proximate in time to the assessment date at issue in June and July 2015 for prices of \$145,000 and \$142,000 or for \$138.18 and \$138.40 per square foot of living area, including land. The subject's assessment reflects a market value of \$151,441 or \$138.30 per square foot of living area, including land,

which is supported by the best comparable sales on a per-square-foot basis and justified in terms of overall value given the subject's slightly larger dwelling size and newer age. After considering the most comparable sales on this record along with adjustments for differences, the Board finds the appellant did not demonstrate the subject property's assessment to be excessive in relation to its market value and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
