

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Alex Argamasilla DOCKET NO.: 15-05457.001-R-1 PARCEL NO.: 05-15-202-015

The parties of record before the Property Tax Appeal Board are Alex Argamasilla, the appellant, by attorney William L. Saranow, of Saranow Law Group, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,570 **IMPR.:** \$139,170 **TOTAL:** \$157,740

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,332 square feet of living area. The dwelling was constructed in 1925. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a detached 462 square foot garage. The property has a 7,377 square foot site and is located in Glen Ellyn, Milton Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood as the subject property. The comparables are improved with two-story dwellings of frame construction. The dwellings were constructed from 1924 to 1977. The comparables had varying degrees of similarity when compared to the subject. The appellant's grid analysis indicates the dwellings range in size from 1,970 to 2,484 square feet of living area and their

Docket No: 15-05457.001-R-1

improvement assessments range from \$92,080 to \$137,930 or from \$39.65 to \$55.53 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$113,685 or \$48.75 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$157,740. The subject property has an improvement assessment of \$139,170 or \$59.68 per square foot of living area. In support of its contention of the subject's correct assessment, the board of review submitted information on six equity comparables located in the same neighborhood as the subject. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry exterior construction. The dwellings were constructed from 1923 to 1959. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,237 to 2,465 square feet of living area and have improvement assessments ranging from \$134,960 to \$155,840 or from \$60.02 to \$65.71 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of ten suggested comparables for the Board's consideration. The Board finds the appellant's comparable #3 was significantly newer than the subject and the appellant's comparable #2 had considerably less living area. In addition, the Board finds board of review comparables #1 through #3 and #5 were also significantly newer than the subject. Consequently, these six comparables received reduced weight in the Board's analysis.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #4 and board of review comparable #4 and #6. These comparables were very similar to the subject in location, design, age and living area. These comparables had improvement assessments ranging from \$39.65 to \$65.71 per square foot of living area. The subject's improvement assessment of \$59.68 per square foot of living area falls within the range of improvement assessments established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.
