

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin & Connie Potter
DOCKET NO.: 15-05477.001-R-1
PARCEL NO.: 09-08-404-009

The parties of record before the Property Tax Appeal Board are Kevin & Connie Potter, the appellants, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$43,760
IMPR.: \$182,360
TOTAL: \$226,120

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part one-story and part two-story dwelling of frame construction with 3,026 square feet of living area. The dwelling was constructed in 2007. Features of the home include a partial finished basement, central air conditioning, a fireplace and a 477 square foot garage. The property has a 7,500 square foot site and is located in Downers Grove, Downers Grove Township, DuPage County.

The appellants contend assessment inequity as the basis of the appeal. In support of this argument, the appellants submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with part one-story and part two-story or part three-story, part two-story and part one-story dwellings of frame construction. The dwellings were constructed in 2005 or 2012. The comparables had varying degrees of similarity when compared to the subject. The appellants' grid analysis indicates the

dwellings range in size from 3,475 to 3,655 square feet of living area and their improvement assessments range from \$185,240 to \$196,870 or from \$53.31 to \$53.87 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment to \$162,435 or \$53.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$226,120. The subject property has an improvement assessment of \$182,360 or \$60.26 per square foot of living area. In support of its contention of the subject's correct assessment, the board of review through the Downers Grover Township Assessor submitted information on three equity comparables located in the same neighborhood as the subject. The comparables are improved with part two-story and part one-story dwellings of frame exterior construction. The dwellings were constructed in 2006 or 2008. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,819 to 3,091 square feet of living area and have improvement assessments ranging from \$169,390 to \$190,560 or from \$60.09 to \$62.06 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of six suggested comparables. The Board finds that the appellants' comparables had significantly more living area than the subject and comparables #1 and #2 were also somewhat newer than the subject. As a result, the appellants' comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. These comparables were more similar to the subject in living area and were also very similar in location and age. These comparables had improvement assessments ranging from \$60.09 to \$62.06 per square foot of living area. The subject's improvement assessment of \$60.26 per square foot of living area falls within the range of improvement assessments established by the best comparables in this record. Based on this record, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
