

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Scharafin
DOCKET NO.: 15-05490.001-R-1
PARCEL NO.: 07-13-311-020

The parties of record before the Property Tax Appeal Board are Charles Scharafin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$86,200
IMPR.: \$279,700
TOTAL: \$365,900

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and brick construction with 4,914 square feet of living area. The dwelling was constructed in 2005. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a 720 square foot garage. The property has a 10,168 square foot site and is located in Naperville, Naperville Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with two-story dwellings of frame and brick construction. The dwellings were constructed from 2002 to 2005. The comparables had features of similarity when compared to the subject. The dwellings range in size from 4,048 to 5,831 square feet of living area and have improvement assessments ranging

from \$206,000 to \$264,630 or from \$45.38 to \$50.89 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$323,267.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$365,900. The subject property has an improvement assessment of \$279,700 or \$56.92 per square foot of living area. In support of its contention of the subject's correct assessment, the board of review submitted information on six equity comparables located in the same neighborhood as the subject. The comparables are improved with two-story dwellings of frame and brick exterior construction. The dwellings were constructed from 2003 to 2007. The comparables had features of similarity when compared to the subject. The dwellings range in size from 4,118 to 4,969 square feet of living area and have improvement assessments ranging from \$248,550 to \$296,220 or from \$55.37 to \$62.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of nine suggested comparables that were very similar to the subject in location, design, exterior construction, age and foundation. The Board finds the appellant's comparables #1 and #3 and board of review comparable #2 differed significantly from the subject in living area and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparables #1 and #3 through #6. The Board finds these comparables were more similar to the subject in living area. These comparables had improvement assessments that ranged from \$48.46 to \$61.96 per square foot of living area. The subject's improvement assessment of \$56.92 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
