

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cyrus Serry
DOCKET NO.: 15-05491.001-R-1
PARCEL NO.: 06-35-205-005

The parties of record before the Property Tax Appeal Board are Cyrus Serry, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$179,300
IMPR.: \$521,260
TOTAL: \$700,560

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick construction with 9,145 square feet of living area. The dwelling was constructed in 1990. Features of the home include a full unfinished basement, central air conditioning, four fireplaces, an in-ground pool and a four-car garage. The property has a 43,217 square foot site and is located in Oak Brook, York Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables, one of which is located in the same neighborhood as the subject property. The comparables are improved with two-story dwellings of brick construction. The dwellings were constructed from 1987 to 1992. The comparables had features of similarity when compared to the subject. The dwellings range in size from 7,236 to 8,649 square feet of living area and have improvement assessments ranging

from \$321,390 to \$405,220 or from \$44.42 to \$49.75 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's total assessment to \$609,084.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$700,560. The subject property has an improvement assessment of \$521,260 or \$57.00 per square foot of living area. In support of its contention of the subject's correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood as the subject. The comparables are improved with two-story dwellings of brick exterior construction. The dwellings were constructed from 1978 to 1985. The comparables had features of similarity when compared to the subject. The dwellings range in size from 7,803 to 11,350 square feet of living area and have improvement assessments ranging from \$573,810 to \$738,690 or \$65.08 and \$73.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of six suggested comparables. The Board finds the appellant's comparables #2 and #3 were located in a different neighborhood and board of review comparable #3 was significantly older than the subject. As a result, these comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparable #1 and the comparables submitted by the board of review. The Board finds these comparables were two-story, brick dwellings that were located in the same neighborhood as the subject and were generally similar to the subject in age and living area. These comparables had improvement assessments that ranged from \$44.42 to \$73.54 per square foot of living area. The subject's improvement assessment of \$57.00 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
