

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Don Yetter
DOCKET NO.: 15-05566.001-R-1
PARCEL NO.: 07-10-403-024

The parties of record before the Property Tax Appeal Board are Don Yetter, the appellant; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$35,000
IMPR.: \$79,060
TOTAL: \$114,060

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,088 square feet of living area. The dwelling was constructed in 1980. Features of the home include a full basement, central air conditioning and an attached two-car garage. The property has a 10,477 square foot site and is located in Naperville, Naperville Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with two-story dwellings of frame construction. The dwellings were constructed from 1977 to 1979. The comparables had varying degrees of similarity when compared to the subject. The appellant's grid analysis indicates the dwellings range in size from 2,001 to 2,834 square feet of living area and their improvement assessments range from \$69,560 to \$98,940 or from \$33.28 to \$34.91 per square

foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$73,068 or \$34.99 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$114,060. The subject property has an improvement assessment of \$79,060 or \$37.86 per square foot of living area. In support of its contention of the subject's correct assessment, the board of review through the Naperville Township Assessor submitted information on six equity comparables located in the same neighborhood as the subject. The comparables are improved with two-story dwellings of frame exterior construction. The dwellings were constructed from 1977 to 1985. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 1,898 to 2,362 square feet of living area and have improvement assessments ranging from \$75,010 to \$88,070 or from \$36.56 to \$39.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The appellant submitted a rebuttal to the board of review's evidence.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of nine suggested comparables. The appellant's comparable #2 had significantly more living area than the subject and received reduced weight in the Board's analysis. Board of review comparable #4 had a much smaller basement than the subject and also received reduced weight. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #3 and board of review comparables #1 through #3, #5 and #6. These seven comparables were very similar to the subject in location, age, living area and basement size. These comparables had improvement assessments ranging from \$33.28 to \$39.52 per square foot of living area. The subject's improvement assessment of \$37.86 per square foot of living area falls within the range of improvement assessments established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
