

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Michael Moruzzi
DOCKET NO.: 15-05944.001-R-1
PARCEL NO.: 03-14-110-006

The parties of record before the Property Tax Appeal Board are Michael Moruzzi, the appellant; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,790
IMPR.: \$23,410
TOTAL: \$42,200

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling of frame and brick exterior construction with 927 square feet of living area. The dwelling was constructed in 1958. Features of the home include a partially finished lower level and central air conditioning. The property has a 6,250 square foot site and is located in Bensenville, Addison Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within two blocks of the subject property. The comparables were improved with one-story dwellings that were built from 1953 to 1958. The dwellings range in size from 836 to 996 square feet of living area and are situated on sites that contain 7,200 or 7,500 square feet of land area. The dwellings have improvement assessments ranging from \$14,220 to \$17,470 or from \$14.28 to \$20.24 per square foot of living area. The comparables had features with varying degrees of similarity when compared to the subject. Each comparable had central air conditioning and comparable #3 had a

full finished basement. Based on this evidence, the appellant requested the total assessment be reduced to \$36,798.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,200. The subject property has an improvement assessment of \$23,410 or \$25.25 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on six equity comparables located in the same neighborhood assessment code as the subject property. The comparables were improved with split-level frame and brick dwellings that were built from 1958 to 1964. The dwellings range in size from 979 to 1,033 square feet of living area and are situated on sites that contain from 6,250 to 7,714 square feet of land area. The comparables had features with varying degrees of similarity when compared to the subject. Each comparable has a finished lower level, a detached garage and four of the comparables have central air conditioning. The dwellings have improvement assessments ranging from \$27,270 to \$28,690 or from \$26.59 to \$27.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of nine suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their dissimilar design when compared to the subject property. The Board finds the board of review comparables are more similar when compared to the subject in location, age, dwelling size, design, exterior construction and features. These comparables had improvement assessments that ranged from \$26.59 to \$27.85 per square foot of living area. The subject's improvement assessment of \$25.25 per square foot of living area falls below the range established by the best comparables in this record and appears to be justified given that the subject is inferior to the comparables' given their garage amenity. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
