

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Greg Wall
DOCKET NO.: 15-06216.001-R-1
PARCEL NO.: 09-06-109-002

The parties of record before the Property Tax Appeal Board are Greg Wall, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher, in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$36,130
IMPR.: \$45,230
TOTAL: \$81,360

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame exterior construction that has 1,248 square feet of living area. The dwelling was built in 1960. Features include a full unfinished basement and a 484 square foot garage. The subject property is located in Downers Grove Township, DuPage County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity claim, the appellant submitted three assessment comparables located within the same neighborhood code as the subject. The comparables are comprised of one-story dwellings of frame or brick and frame exterior construction that were built from 1958 to 1962. Features include partial basements, one of which is 25% finished; one comparable has central air conditioning and a fireplace; and all the comparables have a garage that range in size from 575 to 621 square feet of building area. The

dwellings range in size from 1,296 to 1,725 square feet of living area and have improvement assessments ranging from \$43,500 to \$59,820 or from \$29.57 to \$34.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$81,360. The subject property has an improvement assessment of \$45,230 or \$36.24 per square foot of living area.

In support of the subject's assessment, the board of review submitted three assessment comparables located within the same neighborhood code as the subject. The comparables are comprised of one-story dwellings of frame exterior construction that were built from 1960 to 1965. The comparables have full unfinished basements, one comparable has central air conditioning, one comparable has a fireplace and all the comparables have a garage that range in size from 441 to 1,308 square feet of building of building area. The dwellings range in size from 1,256 to 1,452 square feet of living area and have improvement assessments ranging from \$47,840 to \$53,690 or from \$36.61 to \$38.09 per square foot of living area.

The board of review, through the township assessor, argued the appellant's comparables have smaller basements and comparables #2 and #3 are larger in dwelling size when compared to the subject. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof.

The record contains six assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant. Two comparables are larger in dwelling size and all of the comparables have smaller basements, one of which is finished, dissimilar to the subject. The Board gave less weight to comparable #1 submitted by the board of review due to its considerably larger garage when compared to the subject. The Board finds the remaining two comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments of \$47,840 and \$53,690 or \$36.61 and \$38.09 per square foot of living area. The subject property has an improvement assessment of \$45,230 or \$36.24 per square foot of living area, which is less than the most similar assessment comparables contained in the record. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
