

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Allen Piolet
DOCKET NO.: 15-06220.001-R-1
PARCEL NO.: 10-01-103-013

The parties of record before the Property Tax Appeal Board are Allen Piolet, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher, in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 90,500
IMPR.: \$201,900
TOTAL: \$292,400

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part two-story and part one-story dwelling of brick exterior construction that has 4,691 square feet of living area. The dwelling was built in 1990. Features include a full basement that is 75% finished, central air conditioning, five fireplaces and an 804 square foot garage. The subject property is located in Downers Grove Township, DuPage County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity claim, the appellant submitted three assessment comparables located within the same neighborhood code as the subject. The comparables are comprised of part one-story and part two-story dwellings of brick exterior construction that were built in 1990 or 1991. Features include unfinished basements, central air conditioning, three or four fireplaces and garages that range in size from 840 to 1,032 square feet

of building area.¹ The dwellings range in size from 4,769 to 5,486 square feet of living area and have improvement assessments ranging from \$133,440 to \$216,230 or from \$26.82 to \$39.42 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$292,400. The subject property has an improvement assessment of \$201,900 or \$43.04 per square foot of living area.

In support of the subject's assessment, the board of review submitted three assessment comparables located within the same neighborhood code as the subject. The comparables are comprised of part two-story and part one-story dwellings of brick exterior construction that were built from 1990 to 2000. Two comparables have full basements that are 75% finished. Other features include central air conditioning, two or five fireplaces and a garage that range in size from 759 to 1,042 square feet of building of building area. The dwellings range in size from 4,369 to 5,173 square feet of living area and have improvement assessments ranging from \$182,550 to \$225,110 or from \$41.64 to \$47.32 per square foot of living area.

The board of review, through the township assessor, argued the appellant's comparables have unfinished basements, fewer fireplaces and two comparables have fewer bathrooms when compared to the subject. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof.

The record contains six assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant. All the comparables have unfinished basements, inferior to the subject's finished basement. The Board also gave less weight to comparable #3 submitted by the board of review due to its unfinished basement when compared to the subject. The Board finds the remaining two comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments of \$182,550 and \$225,110 or \$41.78 and \$47.32 per square foot of living area. The subject property has an improvement assessment of \$201,900 or \$43.04 per square foot of living area, which is supported by the most similar assessment comparables contained in the record. Therefore, no reduction in the subject's assessment is warranted.

¹ Much of the descriptive information for the appellant's comparable was supplied by the board of review.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
