

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arnold Boris
DOCKET NO.: 15-06245.001-R-1
PARCEL NO.: 13-05-336-003

The parties of record before the Property Tax Appeal Board are Arnold Boris, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher, in Chicago; and the McHenry County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **McHenry** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 1,968
IMPR.: \$34,212
TOTAL: \$36,180

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the McHenry County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story brick condominium that has 1,430 square feet of living area. The dwelling was built in 2004. Features include central air conditioning, a fireplace and a 384 square foot integral garage. The subject property is located in Dorr Township, McHenry County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted a grid analysis of four assessment comparables located in a different subdivision than the subject. The comparables are comprised two-story brick dwellings that were built in 2008. The comparables have central air conditioning. The dwellings range in size from 1,640 to 1,773 square feet of living area and have improvement assessments ranging from \$34,670 to \$36,773 or from \$20.74 to \$21.14 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$36,180. The subject property has an improvement assessment of \$34,212 or \$23.92 per square foot of living area. In support of the subject's assessment, the board of review submitted a grid analysis of four assessment comparables located in the same subdivision as the subject. The evidence was prepared by the Dorr Township Assessor. The comparables consist of two-story condominiums that were built in 2003 or 2004. Features include central air conditioning, one fireplace and garages that range in size from 175 to 354 square feet of building area. The dwellings range in size from 1,412 to 1,434 square feet of living area and have improvement assessments ranging from \$34,126 to \$39,673 or from \$23.96 to \$27.67 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof.

The record contains eight assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant due to their location in a different subdivision than the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, design, age, dwelling size and features. They have improvement assessments ranging from \$34,126 to \$39,673 or from \$23.96 to \$27.67 per square foot of living area. The subject property has an improvement assessment of \$34,212 or \$23.92 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record on an overall basis and within the range on a per square foot basis. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
