

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: AH4R 1 IL, LLC
DOCKET NO.: 15-06276.001-R-1
PARCEL NO.: 19-11-451-001

The parties of record before the Property Tax Appeal Board are AH4R 1 IL, LLC, the appellant, by attorney Michael R. Davies of the Law Offices of Michael R. Davies, Ltd., in Oak Lawn; and the McHenry County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **McHenry** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,886
IMPR.: \$51,737
TOTAL: \$66,623

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the McHenry County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling that has 1,900 square feet of living area. The dwelling was built in 1995. Features include a partial finished English basement, central air conditioning, a fireplace and a 420 square foot garage. The subject property is located in Algonquin Township, McHenry County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted a grid analysis with limited descriptive information for five assessment comparables located along the same street as the subject. The comparables are comprised of residences of unknown story height or exterior construction that were built in 1992 or 1993. The appellant's attorney did not identify features of the comparables with respect to their foundation type, central air conditioning, fireplaces or garages. The dwellings range in size from 1,680 to 2,353 square feet of living area and have improvement assessments ranging from

\$44,772 to \$56,969 or from \$24.21 to \$27.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$66,623. The subject property has an improvement assessment of \$51,737 or \$27.23 per square foot of living area.¹ In support of the subject's assessment, the board of review submitted a grid analysis of the appellant's comparables with complete descriptive information and seven additional assessment comparables located within the same subdivision as the subject property. The seven additional comparables consist of two-story dwellings that were 20 to 26 years old. Six comparables have unfinished basements and one comparable has a partial finished basement. Other features include central air conditioning, four comparables have a fireplace and each comparable has a garage that contains 420 square feet of building area. The dwellings range in size from 1,890 to 1,937 square feet of living area and have improvement assessments ranging from \$41,920 to \$52,125 or from \$21.64 to \$27.16 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof.

The record contains 12 assessment comparables for the Board's consideration. The Board gave less weight to comparable #5 submitted by the appellant due to its larger dwelling size when compared to the subject. The Board finds the remaining 11 comparables are more similar when compared to the subject in location, design, age, dwelling size and most features, but 10 comparables have inferior unfinished basements compared to the subject's partial finished basement. They have improvement assessments ranging from \$41,920 to \$52,125 or from \$21.64 to \$27.63 per square foot of living area. The subject property has an improvement assessment of \$51,737 or \$27.23 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's improvement assessment is warranted.

¹ In the comparative equity analysis, the appellant's attorney used an incorrect improvement assessment for the subject property of \$57,244.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
