

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joe Helfrich
DOCKET NO.: 15-21780.001-R-1
PARCEL NO.: 14-19-326-045-0000

The parties of record before the Property Tax Appeal Board are Joe Helfrich, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,248
IMPR.: \$41,930
TOTAL: \$55,178

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 2,314 square feet of living area. The dwelling is approximately 92 years old. Features of the building include a full basement with finished area and a two-car garage. The property has a 2,880 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 apartment building property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property.¹ The comparables were improved with two-story multi-family dwellings of frame or masonry exterior construction containing from

2,216 to 2,358 square feet of living area. The comparables range in age from 95 to 107 years old. The comparables feature full unfinished basements and four comparables have one-car or two-car garages. The comparables had improvement assessments ranging from \$33,773 to \$35,264 or from \$14.79 to \$15.55 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$35,267 or \$15.24 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,178. The subject property has an improvement assessment of \$41,930 or \$18.12 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same subdivision as the subject property. The comparables were improved with two-story multi-family dwellings of masonry exterior construction containing from 2,088 to 2,472 square feet of living area. The comparables are either 99 or 102 years old. The comparables feature full unfinished basements and two-car garages. The comparables had improvement assessments ranging from \$43,490 to \$47,159 or from \$19.08 to \$21.10 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. Both parties comparables are similar to the subject in location, design, exterior construction, age, dwelling size, foundation and features. These comparables had improvement assessments that ranged from \$33,773 to \$47,159 or from \$14.79 to \$21.10 per square foot of living area. The subject's improvement assessment of \$41,930 or \$18.12 per square foot of living area falls within the range established by the comparables contained in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(b) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(b)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
