

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Clayton Isthmus, LLC
DOCKET NO.: 15-22162.001-R-1
PARCEL NO.: 14-05-300-027-0000

The parties of record before the Property Tax Appeal Board are Clayton Isthmus, LLC, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,480
IMPR.: \$47,222
TOTAL: \$71,702

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family dwelling of masonry exterior construction with 10,713 square feet of living area. The dwelling is approximately 89 years old. Features of the building include six bathrooms, a full unfinished basement and a three-car garage. The property has a 7,200 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property. The comparables were improved with three-story multi-family dwellings of masonry exterior construction containing from 8,763 to 11,220 square feet of living area. The comparables range in age from 86 to 99 years old. The

comparables feature six bathrooms and full basements, one of which has finished area. Two comparables have a 2-car or a 3.5-car garage. The comparables had improvement assessments ranging from \$38,631 to \$44,431 or either \$3.96 or \$4.41 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$47,222 or \$4.41 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$80,180. The subject property has an improvement assessment of \$55,700 or \$5.20 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables were improved with three-story multi-family dwellings of masonry exterior construction containing from 6,477 to 8,322 square feet of living area. The comparables range in age from 88 to 96 years old. The comparables feature four or six bathrooms, full basements, one of which has finished area. The comparables have either a 2-car, a 3-car or a 3.5-car garage. The comparables had improvement assessments ranging from \$39,769 to \$50,548 or from \$6.07 to \$6.62 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 along with the board of review comparables due to their considerably smaller dwelling sizes when compared to the subject's dwelling size.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1, #2, #4 and #5. These comparables are most similar to the subject in location, design, exterior construction, age, dwelling size, foundation and features. These comparables had improvement assessments that ranged from \$39,343 to \$44,431 or either \$3.96 or \$4.41 per square foot of living area. The subject's improvement assessment of \$55,700 or \$5.20 per square foot of living area is above the ranges established by the most similar comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment warrants a reduction. Based on this record, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
