

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Salomon Peters
DOCKET NO.: 15-22829.001-R-1
PARCEL NO.: 09-13-218-024-0000

The parties of record before the Property Tax Appeal Board are Salomon Peters, the appellant, by attorney John S. Xydakis, of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,349
IMPR.: \$49,681
TOTAL: \$54,030

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry construction. The dwelling is approximately six years old and has 3,965 square feet of living area. Features of the home include a full finished basement, central air conditioning, a fireplace and a two-car garage. The property has a 7,564-square foot site and is located in Morton Grove, Maine Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables with the same assigned neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of masonry construction. The dwellings are described as being from 57

to 61 years old and contain from 3,967 to 4,138 square feet of living area.¹ Each comparable has a basement, and two comparables have central air conditioning and fireplaces. Information regarding garages was not provided on the appellant's grid analysis; however, the appellant's photographic evidence revealed that at least two of the comparables have garages. The comparables have improvement assessments ranging from \$40,950 to \$41,380 or from \$10.00 to \$10.32 per square foot of living area. The appellant also submitted a map showing the location of the subject property and the comparable properties. The map revealed that two of the appellant's comparables were located near the subject and one was located in another municipality. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$39,769 or \$10.03 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$54,030 was disclosed. The subject property has an improvement assessment of \$49,681 or \$12.53 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties with the same assigned neighborhood and classification codes as the subject. Two of the comparables were described as being located one-quarter mile from the subject property. The comparables are improved with two-story dwellings of masonry construction. The dwellings are either six or seven years old and contain from 3,866 to 4,505 square feet of living area. Each comparable has a full basement, two of which have finished area; central air conditioning and a garage, either two-car or three-car. Three comparables have a fireplace. These properties have improvement assessments ranging from \$50,797 to \$56,593 or from \$12.56 to \$13.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on seven suggested comparables that were improved with two-story masonry dwellings like the subject. However, the Board gave reduced weight to the appellant's comparables, because they were significantly older than the subject. The Board also gave reduced weight to board of review comparable #3, because it had significantly more living area than the subject. The Board finds the best evidence of assessment equity to be board of review comparables #1 and #4. These comparables had full finished basements like the subject and were also very similar in location, age, living area and other features. As further support, the Board finds that board of review comparables #2, despite not having a finished basement, was also similar to the subject in location, age, living area and other features. Board of review

¹ The appellant's photographic evidence indicates that at least two of the comparables may have been replaced with newer dwellings.

comparables #1, #2 and #4 had improvement assessments that ranged from \$12.85 to \$13.39 per square foot of living area. The subject's improvement assessment of \$12.53 per square foot of living area falls below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
