

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Joyce
DOCKET NO.: 15-22862.001 -R-1
PARCEL NO.: 28-18-216-022-0000

The parties of record before the Property Tax Appeal Board are Daniel Joyce, the appellant, by attorney John S. Xydakis, of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,080
IMPR.: \$15,794
TOTAL: \$18,874

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction. The dwelling is approximately 43 years old and has 1,589 square feet of living area. Features of the home include a partial finished basement and a two-car garage. The property has a 7,700-square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with multi-level dwellings of frame and masonry construction. The dwellings are from 36 to 46 years old and contain from 1,249 to 1,594 square feet of living area. Each comparable has a partial

basement; two comparables have central air conditioning; and two comparables have fireplaces. The appellant's photographic evidence revealed each comparable has a two-car garage. The comparables have improvement assessments ranging from \$10,610 to \$13,360 or from \$7.94 to \$8.49 per square foot of living area. The appellant also submitted a map which revealed the comparables were located in the same general area as the subject property. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$13,316 or \$8.38 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$18,874 was disclosed. The subject property has an improvement assessment of \$15,794 or \$9.94 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties with the same neighborhood and classification codes as the subject. The comparables are located on the same block or tax block as the subject property. The comparables are improved with multi-level dwellings of frame and masonry construction. The dwellings are 42 or 43 years old and contain from 1,556 to 1,591 square feet of living area. Each comparable has a partial finished basement and a two-car garage. One of the comparables has central air conditioning. These properties have improvement assessments ranging from \$16,176 to \$16,883 or from \$10.24 to \$10.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of seven suggested comparables. The appellant's comparable #3 had significantly less living area than the subject and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 and the comparables submitted by the board of review. The Board finds these comparables were very similar to the subject in location, design, exterior construction, age, living area and features like partial basements and two-car garages. These comparables had improvement assessments that ranged from \$7.94 to \$10.75 per square foot of living area. The subject's improvement assessment of \$9.94 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
