

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christopher Biggins
DOCKET NO.: 15-22882.001-R-1
PARCEL NO.: 09-34-223-009-0000

The parties of record before the Property Tax Appeal Board are Christopher Biggins, the appellant, by attorney John S. Xydakis, of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,940
IMPR.: \$21,215
TOTAL: \$27,155

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry construction. The dwelling is approximately 64 years old and has 1,169 square feet of living area. Features of the home include a full unfinished basement, two fireplaces and a one-car garage. The property has a 7,920-square foot site and is located in Park Ridge, Maine Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with one or one and one-half story dwellings of masonry construction. The dwellings are from 61 to 90 years old and contain from 1,131 to 1,446 square feet of living area. Three comparables have basements and fireplaces, and two comparables have central air conditioning. Information

regarding garages was not provided on the grid analysis. The comparables have improvement assessments ranging from \$2,351 to \$15,509 or from \$1.63 to \$12.64 per square foot of living area. The appellant submitted a map which revealed that none of the comparables were located near the subject property. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$8,545 or \$7.31 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$27,155 was disclosed. The subject property has an improvement assessment of \$21,215 or \$18.15 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties. The comparables have the same neighborhood and classification codes as the subject and were described as being located one-quarter mile from the subject property. The comparables are improved with one-story dwellings of masonry construction. The dwellings are from 58 to 65 years old and contain from 1,104 to 1,359 square feet of living area. Three comparables have full finished basements, and one comparable has a partial unfinished basement. Each comparable has central air conditioning and a garage, either one-car or two-car. Three comparables have a fireplace. The board of review's four comparable properties have improvement assessments ranging from \$22,304 to \$30,763 or from \$20.20 to \$22.64 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds the appellant's comparables differed significantly from the subject in location; comparables #1 and #2 were significantly older; and comparable #4 differed in foundation. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables were very similar to the subject in location, design, exterior construction, age and living area. These comparables had improvement assessments that ranged from \$20.20 to \$22.64 per square foot of living area. The subject's improvement assessment of \$18.15 per square foot of living area falls below the range established by the best comparables in this record. The Board considered adjustments and differences in the comparables when compared to the subject. The board of review comparables had central air conditioning, but the subject did not, and three of the board of review comparables had full finished basements, while the subject had full unfinished basement. The superior attributes of central air conditioning and finished basements help to explain why the board of review comparables had higher improvement assessments than the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
