

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Glenda Aranas  
DOCKET NO.: 15-22887.001-R-1  
PARCEL NO.: 09-13-327-013-0000

The parties of record before the Property Tax Appeal Board are Glenda Aranas, the appellant, by attorney John S. Xydakis, of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,077  
**IMPR.:** \$20,084  
**TOTAL:** \$24,161

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a multi-level dwelling of frame and masonry construction. The dwelling is approximately 52 years old and has 1,594 square feet of living area. Features of the home include a partial finished basement and a two-car garage. The property has a 6,273-square foot site and is located in Niles, Maine Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with multi-level dwellings of frame and masonry construction. The dwellings are from 47 to 56 years old and contain from 1,288 to 1,662 square feet of living area. Each comparable has a partial basement; three comparables have central air conditioning; and one comparable has a fireplace. Information regarding garages was not provided on the appellant's grid analysis. The

comparables have improvement assessments ranging from \$10,750 to \$17,063 or from \$8.35 to \$10.27 per square foot of living area. The appellant also submitted a map which revealed that none of the comparables were located near the subject property. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$15,797 or \$9.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$24,161 was disclosed. The subject property has an improvement assessment of \$20,084 or \$12.60 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties with the same neighborhood and classification codes as the subject. The comparables were described as being located on the same block or tax block as the subject property. The comparables are improved with multi-level dwellings of frame and masonry construction. The dwellings are 51 or 52 years old and contain either 1,248 or 1,594 square feet of living area. Each comparable has a partial finished basement, central air conditioning and a garage, either two-car or two and one-half car. The board of review's four comparable properties have improvement assessments ranging from \$19,108 to \$22,509 or from \$13.91 to \$15.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The Board finds the appellant's comparables were not located near the subject and comparable #1 had significantly less living area than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. Board of review comparable #1 had considerably less living area than the subject and also received reduced weight. The Board finds the best evidence of assessment equity to be board of review comparables #2 through #4. The Board finds these three comparables, despite differences in central air conditioning, were located in the same block or tax block as the subject and were very similar to the subject in design, exterior construction, age, living area and features like a partial finished basement and a two-car garage. These comparables had improvement assessments that ranged from \$13.91 to \$14.12 per square foot of living area. The subject's improvement assessment of \$12.60 per square foot of living area falls below the range established by the best comparables in this record. The Board considered adjustments and differences in the comparables when compared to the subject. Board of review comparables #2 through #4 had central air conditioning, but the subject did not. The superior attribute of central air conditioning helps to explain why these comparables had higher improvement assessments than the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
