

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anthony Rago
DOCKET NO.: 15-24659.001-R-1
PARCEL NO.: 15-32-304-012-0000

The parties of record before the Property Tax Appeal Board are Anthony Rago, the appellant, by attorney Timothy E. Moran of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,950
IMPR.: \$53,738
TOTAL: \$58,688

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry construction with 3,019 square feet of living area. The dwelling is approximately seven years old. Features of the property include a full basement with a recreation room, central air conditioning, two fireplaces and a two-car garage. The property has a 6,600-square foot site and is located in Western Springs, Proviso Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables improved with two-story dwellings of frame, masonry or frame and masonry construction that range in size from 2,812 to 3,034 square feet of living area. The dwellings range in age from 7 to 49 years old. Four comparables have basements with one having finished

area, each comparable has central air conditioning, each comparable has one or two fireplaces and three comparables are described as having a 2-car or a 2.5-car garage. Two of the comparables have the same assessment neighborhood code as the subject property. These properties have improvement assessments ranging from \$37,075 to \$51,238 or from \$12.22 to \$16.89 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$46,815 or \$15.51 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,688. The subject property has an improvement assessment of \$53,738 or \$17.80 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story dwellings of masonry, stucco or frame and masonry construction that range in size from 2,877 to 3,485 square feet of living area. The dwellings range in age from 4 to 22 years old. Each comparable has a full basement with one having finished area, each comparable has central air conditioning, three comparables each have one fireplace and each comparable has a 2-car or a 3-car garage. Each property has the same assessment neighborhood code as the subject property. These properties have improvement assessments ranging from \$55,304 to \$62,039 or from \$17.80 to \$19.22 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The board of review comparables were most similar to the subject property in location, age and features. The board of review comparables have improvement assessments that range from \$55,304 to \$62,039 or from \$17.80 to \$19.22 per square foot of living area. The subject's improvement assessment of \$53,738 or \$17.80 per square foot of living area falls within the range established by the best comparables in this record on a square foot basis. The Board gave less weight to appellant's comparables #1 through #3 due to location as each comparable has a different assessment neighborhood code than the subject property and comparable #3 has no garage. The Board gave less weight to appellant's comparables #4 and #5 due to differences in age from the subject property as well as the fact that appellant's comparable #4 has a slab foundation and no garage. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
