

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Yulel Jiang
DOCKET NO.: 15-25077.001-R-1
PARCEL NO.: 20-14-211-045-0000

The parties of record before the Property Tax Appeal Board are Yulel Jiang, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,946
IMPR.: \$40,644
TOTAL: \$46,590

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhouse of masonry exterior construction with 1,676 square feet of living area. The dwelling is approximately 55 years old. Features of the home include a full basement with finished area and central air conditioning. The property has a 1,802 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property. The comparables are improved with two-story townhouses of masonry exterior construction. The dwellings are either 45 or 49 years old and contain from 1,656 to 1,775 square feet of living

area. The comparables have partial or full basements, two of which have finished areas. Three comparables have central air conditioning and a fireplace. The comparables have improvement assessments ranging from \$31,008 to \$36,635 or from \$18.44 to \$20.64 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$32,284 or \$19.26 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,590. The subject property has an improvement assessment of \$40,644 or \$24.25 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code, block and street as the subject property. The comparables are improved with two-story townhouses of masonry exterior construction. The dwellings are 55 years old and have 1,676 square feet of living area. Each comparable has a full basement with finished area and central air conditioning. The comparables have improvement assessments of \$40,644 or \$24.25 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their differences in age, dwelling sizes and/or features when compared to the subject property.

The Board gave greater weight and finds the best evidence of assessment equity to be the board of review comparables which are located within the same neighborhood code, block and street as the subject. These comparables are also identical to the subject in design, exterior construction, age, dwelling size, foundation and features. These comparables have improvement assessments of \$40,644 or \$24.25 per square foot of living area. The subject's improvement assessment of \$40,644 or \$24.25 per square foot of living area is the same as the best comparables contained in this record which appears to be justified since the properties are identical to the subject property. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
