

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roland Baker
DOCKET NO.: 15-25086.001-R-1
PARCEL NO.: 20-12-112-029-0000

The parties of record before the Property Tax Appeal Board are Roland Baker, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,494
IMPR.: \$50,744
TOTAL: \$55,238

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story townhouse of masonry exterior construction with 2,541 square feet of living area. The dwelling is approximately 17 years old. Features of the home include central air conditioning, a fireplace and a two-car garage. The property has a 1,362 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property.¹ The comparables are improved with one, two-story and four, three-story townhouses of masonry

or frame and masonry exterior construction. The dwellings are from 25 to 52 years old and contain from 2,429 to 2,603 square feet of living area. One comparable has a full unfinished basement, each comparable has central air conditioning and three comparables have a one-car garage. The comparables have improvement assessments ranging from \$29,208 to \$40,105 or from \$12.02 to \$15.61 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$34,257 or \$13.48 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,238. The subject property has an improvement assessment of \$50,744 or \$19.97 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code, block and street as the subject property. The comparables are improved with three-story townhouses of masonry exterior construction. The dwellings are 17 years old and have 2,541 square feet of living area. Each comparable has central air conditioning and a two-car garage. The comparables have improvement assessments of \$48,064 and \$54,311 or either \$18.92 and \$21.37 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their older ages, superior basements, and/or lack of garages when compared to the subject property.

The Board gave greater weight and finds the best evidence of assessment equity to be the board of review comparables which are located within the same neighborhood code, block and street as the subject. These comparables are also identical to the subject in design, exterior construction, age, dwelling size, foundation and features. These comparables have improvement assessments of \$48,064 and \$54,311 or either \$18.92 and \$21.37 per square foot of living area. The subject's improvement assessment of \$50,744 or \$19.97 per square foot of living area is within the range of the best comparables contained in this record. The subject's total improvement assessment appears to be well-supported by the board of review comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
