

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Silver Series, LLC Justice 8040
DOCKET NO.: 15-27446.001-R-1
PARCEL NO.: 18-35-404-009-0000

The parties of record before the Property Tax Appeal Board are Silver Series, LLC Justice 8040, the appellant(s), by attorney Katherine Amari O'Dell, of Amari & Locallo in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,241
IMPR.: \$38,116
TOTAL: \$41,357

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry construction with 5,880 square feet of living area. The dwelling is 41 years old. The property has a 9,975 square foot site and is located in Lyons Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and overvaluation as the bases of the appeal. In support of the equity argument, the appellant submitted information on three equity comparables. The comparables ranged in improvement assessment per square foot from \$5.75 to \$5.96.

In support of the overvaluation argument, the appellant submitted 2013 and 2014 rent rolls for the subject property, as well as copies of Form 8825 from their 2012 and 2013 federal income tax returns.

The board of review submitted its "Board of Review-Notes on Appeal" disclosing the total assessment for the subject of \$41,357. The subject property has an improvement assessment of \$38,116, or \$6.48 per square foot of living area. The subject's assessment reflects a market value of \$413,670, or \$70.35 per square foot of living area, including land, when applying the assessment level of 10% as established by the Cook County Real Property Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. They ranged in improvement assessment per square foot from \$5.90 to \$6.75.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 through #3, as well as the board of review's comparables #1 through #4. These comparables had improvement assessments that ranged from \$5.75 to \$6.75 per square foot of living area. The subject's assessment of \$6.48 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed, and a reduction in the subject's assessment is not justified on this basis.

The appellant also contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant relied upon an income capitalization approach to establish overvaluation. In support of this argument, the appellant submitted an Income Analysis developed by their attorney utilizing the subject's rent roll and historical income and expense data.

In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the Illinois Supreme Court stated:

[I]t is clearly the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held by the owner... [R]ental income may of course be a relevant factor. However, it cannot be the controlling

factor, particularly where it is admittedly misleading as to the fair cash value of the property involved... [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value"... [M]any factors may prevent a property owner from realizing an income from property which accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes.

Id. at 430-31.

Actual expenses and income can be useful when shown that they are reflective of the market. Although the appellant made this argument, the appellant did not demonstrate that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish with market data: the market rent; vacancy and collection losses; and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence, therefore, the Board gives this argument no weight. Accordingly, based on the evidence contained in this record, the Board finds a reduction in the subject's assessment is not justified based on overvaluation.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
