

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lawrence Pilliod
DOCKET NO.: 15-28909.001-R-1
PARCEL NO.: 04-35-403-010-0000

The parties of record before the Property Tax Appeal Board are Lawrence Pilliod, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,380
IMPR.: \$51,856
TOTAL: \$71,236

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of masonry exterior construction with 3,139 square feet of living area. The dwelling is approximately 73 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces and a two-car garage. The property has a 22,800 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property. The comparables were improved with two-story townhomes of frame or frame and masonry exterior construction that ranged in size from 2,922 to 3,207 square feet of living area. The

dwelling are from 63 to 86 years old. Four comparables have partial or full basements two of which have finished areas. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$40,190 to \$46,687 or from \$13.75 to \$15.61 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$45,515 or \$14.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,236. The subject property has an improvement assessment of \$51,856 or \$16.52 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within the same neighborhood code, same block and/or street as the subject property. The comparables were improved with two-story townhomes of masonry exterior construction that ranged in size from 2,862 to 3,034 square feet of living area. The dwellings are from 72 to 77 years old and have partial or full basements one of which has a finished area. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$56,704 to \$59,698 or from \$18.83 to \$20.49 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gave greater weight and finds the best evidence of assessment equity to be the board of review comparables #1 and #2 which are located within the same neighborhood code, block and street as the subject property. In addition, these comparables are most similar to the subject in design, exterior construction, age, dwelling size and foundation. These comparables had improvement assessments of \$56,704 or \$59,698 or either \$18.83 or \$19.68 per square foot of living area. The subject's improvement assessment of \$51,856 or \$16.52 per square of living area is below the best comparables contained in this record and does not appear to be over assessed with its slightly larger dwelling size. However, the board of review did not request an increase in the subject's assessment. The Board gave less weight to the remaining comparables due to their differences in location and/or foundations when compared to the subject property. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
