

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: FTS Ventures, LLC
DOCKET NO.: 15-30512.001-R-1
PARCEL NO.: 20-22-210-032-0000

The parties of record before the Property Tax Appeal Board are FTS Ventures, LLC, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,300
IMPR.: \$1,494
TOTAL: \$2,794

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family dwelling of masonry construction. The dwelling is approximately 89 years old and has 1,718 square feet of living area. Features of the dwelling include two apartment units, a full finished basement and a two-car detached garage. The property has a 3,050-square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on October 29, 2015, for a price of \$27,500. In Section IV – Recent Sale Data of the residential appeal form, the appellant stated the seller was Maggie Henderson; the parties to the transaction were not related; the property was sold using a realtor; and the property had been advertised for sale with a multiple

listing service (MLS). The appellant did not answer the question that asked how long the subject property had been advertised for sale. To document the transaction, the appellant submitted copies of the subject property's settlement statement, real estate contract, and special warranty deed. The settlement statement revealed the seller was the estate of Maggie Henderson, deceased and a commission was paid to a realty firm. The appellant's evidence also revealed the subject property was vacant at the time of the sale and was being sold in "as-is" condition. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,312. The subject's assessment reflects a market value of \$150,709 or \$87.72 per square foot of living area, land included, when using the 2015 three-year average median level of assessment for class 2 property of 10.16% under the Cook County Real Property Assessment Classification Ordinance as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales that sold from March 2012 to February 2015 for prices of \$180,000 and \$185,000 or from \$67.92 to \$101.65 per square foot of living area, land included. The comparables have the same assigned neighborhood and classification codes as the subject. Their sites range from 2,928 to 5,313 square feet of land area. The comparables are improved with two-story dwellings of masonry construction. The dwellings range in age from 103 to 117 years old and contain from 1,820 to 2,650 square feet of living area. Each dwelling has two full bathrooms and a full unfinished basement. Two comparables have garages, either one-car or two-car. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The appellant's attorney submitted a rebuttal, in which counsel stated that the subject property had been listed "on MLS for fifty days" prior to its sale.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in October 2015 for a price of \$27,500. The appellant provided evidence demonstrating the sale had many of the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the residential appeal form disclosing the parties to the transaction were not related, the property was sold using a realtor, and the property had been advertised on the open market with a multiple listing service. In Section IV, the appellant did not answer the question that asked how long the property had been advertised for sale; however, in rebuttal, the appellant's attorney stated the property had been listed with MLS for fifty days. The Board finds

the purchase price is below the market value reflected by the assessment. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction and was not able to refute the contention that the purchase price was reflective of market value. The board of review presented four comparable sales that sold from March 2012 to February 2015 for prices that ranged from \$67.92 to \$101.65. The Board finds two of these sales occurred in March and April 2012 and were not proximate to the January 1, 2015 assessment date. Although board of review comparables #2 and #3 were two-story, multi-family dwellings like the subject and sold proximate to the assessment date, these comparables do not overcome the subject's arm's length purchase. Based on this record, the Board finds the subject property had a market value of \$27,500 as of January 1, 2015. Since market value has been determined, the 2015 three-year average median level of assessments for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10.16% shall apply. 86 Ill.Admin.Code §1910.50(c)(2).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
