

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Remberto Del Real
DOCKET NO.: 15-30704.001-R-1
PARCEL NO.: 14-31-330-001-0000

The parties of record before the Property Tax Appeal Board are Remberto Del Real, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,400
IMPR.: \$60,892
TOTAL: \$76,292

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,020 square feet of living area. The dwelling is approximately 117 years old. Features of the home include a full unfinished basement and a one-car garage. The property has a 3,850-square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables with four comparables located in the same neighborhood code as the subject. The comparables were improved with two-story dwellings of masonry or frame exterior construction. The dwellings are from 114 to 132 years old. Three comparables have an

unfinished basement, two comparables have central air conditioning and four comparables have a two-car garage. Two comparables have attic space with living area. The dwellings range in size from 2,614 to 3,196 square feet of living area and have improvement assessments ranging from \$45,307 to \$49,157 or from \$15.18 to \$17.33 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$46,381 or \$15.36 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$76,292. The subject property has an improvement assessment of \$60,892 or \$20.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with one comparable located in the same block, street and neighborhood code as the subject property. The comparables are improved with two-story style masonry dwellings that range in size from 2,350 to 2,544 square feet of living area. The dwellings are from 100 to 117 years old. Each comparable has a full basement with two comparables having finished area, central air conditioning and three comparables have a two-car garage. The comparables have improvement assessments ranging from \$54,349 to \$59,368 or from \$22.33 to \$25.26 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #2 based on their lack of a basement and finished attic when compared to the subject's full basement and no attic. The Board gave less weight to the appellant's comparable #3 along with the board of review's comparable #1 due to their lack of a garage and/or smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the remaining comparables. These comparables have varying degrees of similarity in location, design, dwelling size age and features. These comparables had improvement assessments ranging from \$16.61 to \$22.93 per square foot of living area. The subject's improvement assessment of \$20.16 per square foot of living area is identical to three of the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
