

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ciaran Patterson
DOCKET NO.: 15-30967.001-R-1
PARCEL NO.: 13-12-401-027-0000

The parties of record before the Property Tax Appeal Board are Ciaran Patterson, the appellant, by attorney Timothy E. Moran of Schmidt Salzman & Moran, Ltd., in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,317
IMPR.: \$59,102
TOTAL: \$68,419

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,627 square feet of living area. The dwelling is 108 years old. Features of the home include central air conditioning, a two-car detached garage and a partially finished basement. The property has a 4,437 square foot site and is located in Chicago, Jefferson Township, Cook County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject. The comparables consist of two-story dwellings of frame or masonry construction. The comparables are from 99 to 115 years old. Three comparables have central air conditioning and each has a one or two-car detached garage. Three comparables have unfinished basements, one comparable has a finished basement, and one comparable does not have a basement. The comparables have improvement assessments ranging from \$45,106 to

\$58,373 or from \$16.41 to \$21.31 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$68,419. The subject property has an improvement assessment of \$59,102 or \$22.50 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject. The comparables consist of two-story dwellings of frame, masonry, or frame and masonry construction that were 96 to 107 years old. The comparables have unfinished basements and central air conditioning. Three comparables have a garage. The dwellings range in size from 2,249 to 2,626 square feet of living area, and have improvement assessments ranging from \$50,940 to \$63,745 or from \$22.65 to \$24.27 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record has nine comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #4. Comparable #1 lacks a basement, inferior to the subject, and comparable #4 is smaller in dwelling size when compared to the subject. The also Board gave less weight to comparables #3 and #4 submitted by the board of review due to their smaller dwelling sizes when compared to the subject.

The Board finds the remaining five equity comparables to be most similar to the subject in location, design, age, dwelling size and features. These comparables had improvement assessments that ranged from \$45,990 to \$63,745 or from \$17.30 to \$24.27 per square foot of living area. The subject's improvement assessment of \$59,102 or \$22.50 per square foot of living area falls within the range established by the most similar comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
