

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chandrakant Shah
DOCKET NO.: 15-31080.001-R-1
PARCEL NO.: 06-05-302-012-0000

The parties of record before the Property Tax Appeal Board are Chandrakant Shah, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$935
IMPR.: \$45,789
TOTAL: \$46,724

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 4,174 square feet of living area. The dwelling is 7 years old. Features of the home include central air conditioning, a three-car attached garage and a full unfinished basement. The property has a 12,467 square foot site and is located in Hoffman Estates, Hanover Township, Cook County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject. The comparables consist of two-story dwellings of frame construction. The comparables are from 4 to 10 years old. All of the comparables have central air conditioning and multi-car attached garages. Four of the comparables have full unfinished basements. One comparable has a full basement with a finished recreation room. The

comparables have improvement assessments ranging from \$37,355 to \$39,741 or from \$9.21 to \$9.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,724. The subject property has an improvement assessment of \$45,789 or \$10.97 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject. The comparables consist of two-story dwellings of frame construction that range from 4 to 7 years old. Four of the comparables have unfinished basements. One comparable has a formal recreation room. All of the comparables have central air conditioning and multi-car garages. The dwellings range in size from 3,295 to 4,174 square feet of living area and have improvement assessments ranging from \$34,367 to \$46,343 or from \$10.43 to \$11.10 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine assessment comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #4 as, since it has a full recreation room, it is superior when compared to the subject. The Board gave less weight to comparable #1 submitted by the board of review due to its smaller dwelling size when compared to the subject.

The Board finds the remaining seven equity comparables to be most similar to the subject in location, design, age, dwelling size and features. These comparables had improvement assessments that ranged from \$37,355 to \$46,343 or from \$9.21 to \$11.10 per square foot of living area. The subject's improvement assessment of \$45,789 or \$10.97 per square foot of living area falls within the range established by the most similar comparables contained in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
