

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bing Qun Zhao  
DOCKET NO.: 15-32385.001-R-1  
PARCEL NO.: 17-33-121-068-0000

The parties of record before the Property Tax Appeal Board are Bing Qun Zhao, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,320  
**IMPR.:** \$23,184  
**TOTAL:** \$35,504

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 3,680 square feet of living area. The dwelling is approximately 127 years old. Features of the home include a partial basement with finished area and a two-car garage. The property has a 3,520 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property. The comparables were improved with three, two-story and two, three-story multi-family dwellings of frame, masonry or frame and masonry exterior construction containing from 3,408 to 3,800 square feet of living area. The

comparables are 103 or 127 years old. Three comparables have partial or full basements one of which has finished area. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$11,811 to \$20,715 or from \$3.47 to \$5.49 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$17,575 or \$4.78 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,504. The subject property has an improvement assessment of \$23,184 or \$6.30 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code, same block, same street and/or .25 of a mile from the subject property. The comparables were improved with two-story multi-family dwellings of masonry exterior construction containing from 2,856 to 3,519 square feet of living area. The comparables are each 127 years old and have full basements one of which has an apartment. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$19,249 to \$28,168 or from \$6.53 to \$8.89 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Despite their unfinished basements, the Board finds the best evidence of improvement assessment equity to be the board of review comparables #1 and #2 which are located within the same neighborhood code, same block and/or street as the subject property. These two comparables are identical to the subject in design, exterior construction, age and most other features and similar to the subject's dwelling size. These comparables had improvement assessments of \$21,823 and \$28,168 or \$6.53 and \$8.89 per square foot of living area. The subject's improvement assessment of \$23,184 or \$6.30 per square foot of living area is between the two best comparables contained in this record with its improvement assessment and below on a per-square-foot basis. The Board gave less weight to the remaining comparables due to their location, dissimilar designs, considerably smaller dwelling sizes and/or lack of basements when compared to the subject property. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
